Re. ADMINISTRATION

Interstate Compact for Fire Protection Assistance
with the States of California, Oregon, Washington,
Idaho and Nevada

Dear Governor Brown:

Assembly Bill No. 1643, authored by Assemblyman Norman Waters, was amended in June to become urgency legislation. The bill was signed by you into law on June 29, 1977 to become Chapter 161, Stats. 1977. The reason for the urgency was to provide a vehicle for interstate fire protection assistance between the forestry departments of five western states because of extreme drought conditions that now exist.

The attached agreement and plan for interstate fire protection assistance has been developed cooperatively by the five states initially participating therein. The plan has been reviewed by staff of each of our departments for operational acceptability, fiscal responsibility, conformance with the parent Civil Defense Compact, and legal requirements.

This morning, the Department of Forestry faces a major wildland fire emergency in that all of its firefighting forces are committed to fires currently burning. We anticipate the need of assistance from the State of Oregon by this evening. Therefore, we jointly recommend that you sign the attached agreement today, authorizing California's participation in this mutual assistance program.

Respectfully,

L.A. MORAN

WHEREAS, the availability of state financial assistance is often a determining factor in the use of land and the location and construction of public and private facilities; and

1. The heads of all state agencies shall provide leadership in efforts to minimize the risk of flood losses in connection with state lands and installations and state financed, insured, or assisted improvements. The heads of such agencies shall take particular care to avoid unwise or hazardous use of flood plains in connection with all activities under their authority. Specifically:
 - a. All agencies responsible for the construction of state facilities shall, in writing, evaluate flood hazards when planning the location of new facilities. The evaluation shall consist of a determination of whether the proposed site lies in a flood-hazard area and, if so, what precautions have been taken to minimize the hazard. If the facility does not have to be in the flood plain to serve an essential purpose and the proposed site lies within an identified flood-hazard area, all feasible alternative locations for siting outside of the flood-prone area shall be given consideration. New structures proposed in flood plains must be constructed and maintained in accordance with the design and floodway standards set forth in the Code of Federal Regulations (24 CFR, Parts 1910.3, 1910.4 and 1910.5). Where the flood-hazard area has not been delineated by the federal government, the agency should contact the Department of Water Resources for assistance in evaluating the hazards in the area.
 - b. With respect to existing state-owned buildings which have previously suffered flood damage or are in an identified flood-hazard area, the agencies shall require analysis of past and probable flood heights. In the case of the reconstruction, rehabilitation, or addition to existing publicly used state structures, such activities shall be carried out in accordance with the design and floodway

Executive Department

standards set forth in the Code of Federal Regulations. Whenever practical and appropriate, floodproofing measures shall be applied to existing structures in identified flood-hazard areas.

- c. All agencies responsible for the administration of any form of direct or indirect state assistance involving construction or acquisition of any state facilities shall assure that the evaluation and mitigation of flood hazards in connection with such facilities is carried out in the manner specified in this Executive Order.
 - d. All agencies responsible for the disposal of state lands or properties shall evaluate and mitigate flood hazards. When lands or properties proposed for disposal are found to be susceptible to specified flooding hazards, the state agency shall obtain assurances that proposed uses are appropriate under the provisions of the Cobey-Alquist Flood Plain Management Act.
 - e. All agencies responsible for programs which affect land use planning, including state permit programs, shall take flood hazards into account in accordance with recognized floodway and 100-year frequency flood design standards when evaluating plans and shall encourage land use appropriate to the degree of hazard involved.
2. Technical evaluations of flood hazard can be obtained from the U. S. Army Corps of Engineers and the U. S. Department of Housing and Urban Development. The California Department of Water Resources is hereby designated to coordinate requests for flood hazard information from the U. S. Army Corps of Engineers and other governmental agencies.

PROCLAMATION
OF A
STATE OF EMERGENCY

I, Edmund G. Brown Jr., Governor of the State of California,
do hereby find:

1. That, despite recent rainfall, as a result of unusually small amounts of precipitation during the winters of 1975-76 and 1976-77 in the counties of Modoc, Lassen, Plumas, Sierra, Shasta, Nevada, Yuba, Butte, Tehama, Siskiyou, Trinity, Glenn, Placer and El Dorado, which constitute a major watershed area of the state, water reserves in the Shasta, Oroville and Folsom reservoirs are still at less than one-third of capacity; for this reason, and also as a result of extensive use of groundwater by persons who normally use water stored in said reservoirs, conditions now exist within said counties of the kind described in subdivision (b) of Section 8558 of the California Government Code which constitute a state of emergency; and
2. That local authorities within said counties are inadequate to fully cope with such state of emergency; and
3. That among other things weather modification measures are necessary in the aforesaid counties to cure or alleviate said emergency;

Executive Department
State of California

PAGE TWO

NOW, THEREFORE, pursuant to the California Emergency Services Act, police and other powers vested in me, and based upon the foregoing findings, I hereby proclaim that a state of emergency exists within the aforesaid counties.

I DIRECT that as soon hereafter as possible this proclamation be filed in the Office of the Secretary of State and become effective immediately thereafter; and that widespread publicity and notice be given to this proclamation.

I herewith further determine that weather modification measures are necessary in the aforesaid counties to cure or alleviate said emergency, and direct the Department of Water Resources to take all appropriate steps in proceeding with such measures.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Great Seal of the State of California to be affixed.

PROCLAMATION

The game of soccer has contributed significantly in creating and expanding goodwill for our nation with our neighbors and friends in other parts of the world. California leads the nation in professional and youth soccer involvement.

For participants, soccer encourages the development of sound characteristics of dynamic, constructive citizenship. It provides excellent training for blending physical and mental abilities, for working with others to mutual advantage, and for achieving success against determined competitive effort. For spectators, soccer's infinite variety and flexibility of play provides popular, wholesome and stimulating recreation for thousands of Americans each year.

The North American Soccer League season for 1978 will open in California the weekend of March 31, 1978, and in recognition of the sport's importance in the American way of life, I, MERVYN M. DYMALLY, Acting Governor of California, hereby proclaim March 31, through April 2, 1978, as SOCCER WEEKEND in California. I urge my fellow Californians to give vigorous active support to their favorite teams, amateur or professional, throughout the year in order that the sport may continue to grow and to enhance American life for future generations.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Great Seal of the State of California to be affixed this 28th day of February, 1978.

Gold, Green

Let it be
On a day in March
California;
When the grass is green
On the rolling hills
And the snow
Is deep in the mountains --

Let it be
On a day like this
That we plant a tree
California
For the years to come
For the little ones
and the lakes
Will be pure in the mountains --

Let it be gold and green
California;
That we touch the ground
That we heal the land
From the mountains to the sea.

Gary Snyder '78

This poem was written in honor of Arbor Day which has traditionally been set aside as a day designated for the planting of trees. Trees provide shelter for us and for birds and wildlife. They give us shade and conserve our soil. We harvest fruit from trees and at the same time enjoy their beauty.

I hereby proclaim March 7th as Arbor Day in order that all Californians may be reminded of the multitude of benefits we reap daily from this precious resource. I hope the day will be dedicated to the planting of trees not only for the benefit of this generation but as our gift to posterity.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Great Seal of the State of California to be affixed this 1st day of March, 1978.

PROCLAMATION

Pursuant to Chapter 1 of Part 6 of Division 9 of the Welfare and Institutions Code, and in order to provide for the continued operation of the state plans for Families with Dependent Children under the provisions of the Welfare and Institutions Code, I do hereby find as facts:

That assistance to this State for the above-mentioned Public Assistance Program is provided for by the Federal Social Security Act; and

That this State has qualified to receive Federal assistance for the above-mentioned Public Assistance Program and has not been notified that further payment of such Federal assistance will not be made because of failure of this State to comply with the requirement of the Federal legislation; and

That Federal assistance to this State for the above-mentioned Public Assistance Program has not been received, and it is improbable that such Federal assistance will be received by this State prior to the usual time for transmitting such Federal assistance to the counties of this State.

In consideration of the above findings, I do hereby proclaim the existence of a period of welfare emergency for the months of March, April, May, and June 1978 for Families with Dependent Children, and declare that the sums estimated by the State Department of Benefit Payments in the amount of Federal assistance payable to this State under Federal law and appropriated by Section 18003 of the Welfare and Institution Code are available for expenditure.

You are, therefore, authorized and directed to do all the things necessary to accomplish the intent and purpose of said Chapter 1 of Part 6 of Division 9 of the Welfare and Institutions Code.

Pursuant to Chapter 1 of Part 6 of Division 9 of the Welfare and Institutions Code, and in order to provide for the continued operation of the State plans for Families with Dependent Children under the provisions of the Welfare and Institutions Code, I do hereby find as facts:

That assistance to this State for the above-mentioned Public Assistance Program is provided for by the Federal Social Security Act; and

That this State has qualified to receive Federal assistance for the above-mentioned Public Assistance Program and has not been notified that further payment of such Federal assistance will not be made because of failure of this State to comply with the requirement of the Federal legislation; and

That Federal assistance to this State for the above-mentioned Public Assistance Program has not been received, and it is improbable that such Federal assistance will be received by this State prior to the usual time for transmitting such Federal assistance to the counties of this State.

In consideration of the above findings, I do hereby proclaim the existence of a period of welfare emergency for the months of July, August, September, and October 1978 for families with dependent children, and declare that the sums estimated by the State Department of Social Services in the amount of Federal assistance payable to this State under Federal laws and appropriated by Section 18003 of the Welfare and Institutions Code are available for expenditure.

EXECUTIVE ORDER B 50-78

WHEREAS, protracted litigation involving complex issues arising from major commercial and construction contracts is a significant cause of court congestion in the metropolitan courts of this state; and

WHEREAS, it is in the interest of the State of California, its citizens and parties to State construction contracts to reduce the rising cost of State construction projects by resolving claims which remain in dispute after exhaustion of administrative settlement procedures in a uniform and economical manner as expeditiously and informally as possible; and

WHEREAS, principles of simple equity and fairness require that disputes which the parties to State construction contracts are unable to settle themselves be submitted to mutually agreeable third parties for resolution; and

WHEREAS, Civil Code §1670 (Stats. 1978 c. 1374) authorizes independent arbitration of disputes involving public construction contracts;

NOW, THEREFORE, I, Edmund G. Brown Jr., Governor of the State of California, by virtue of the power and authority vested in me by the Constitution and statutes of the State of California, do hereby issue this order to become effective immediately:

1. All contracts by the Departments of General Services, Transportation and Water Resources under the State Contract Act, for which bids are opened between January 1, 1979 and December 31, 1983, shall include the following provision requiring disputes to be submitted to arbitration pursuant to Code of Civil Procedure §1280 et seq., except as otherwise provided herein:

ARBITRATION

"a. **AGREEMENT OF PARTIES** - By entering into the contract both parties are obligated, and hereby agree, to submit all disputes arising under or relating to the contract which remain unresolved after exhaustion of all remedies available under the contract to independent arbitration prior to litigation.

Executive Department

State of California

PAGE TWO

Except as otherwise provided herein, the arbitration shall be conducted under Code of Civil Procedure §1280 et seq., and applicable departmental regulations.

Either party may elect to proceed under Government Code §14378 for disputes subject to that section. Such an election shall constitute a waiver of arbitration hereunder. Arbitration by both parties shall constitute a waiver of the right to proceed under Government Code §14378. The arbitration provided for in this contract shall be de novo, and any prior internal contractual dispute decision of the contracting agency shall not be final or conclusive.

- "b. INITIATION OF ARBITRATION - Except on cost audit, latent defect, warranty or guarantee claims by the contracting state agency, arbitration of any dispute must be demanded in writing not later than one hundred eighty (180) days after receipt of a final written decision by the contracting state agency. If a final decision has not been issued within two hundred forty (240) days after acceptance of the work, a party shall have the immediate right thereafter to demand arbitration.
- "c. SELECTION OF ARBITRATORS - Unless the parties agree otherwise, arbitration shall be by a single neutral arbitrator who shall be an attorney or retired judge. If the parties cannot agree to the appointment of a neutral arbitrator, either party may petition the superior court to appoint a neutral arbitrator from the panel of arbitrators certified by the Arbitration Committee.

The arbitrator may employ an expert technical advisor in disputes of extraordinary technical complexity on motion

of either party or with the consent of the parties. On motion of either party, a non-attorney arbitrator shall employ an attorney advisor to assist in preparing the arbitration award. The parties shall share the expense of such advisors pro rata.

"d. DISCOVERY - The parties consent to discovery rights and procedures as provided in Code of Civil Procedure §1283.05. The provisions of subparagraph (e) of §1283.05 shall not be applicable to discovery under this contract.

"e. ARBITRATION AWARD - The arbitrator shall decide the dispute in accordance with the applicable substantive law of California. An award, including an award of costs and fees pursuant to subparagraph (f), is beyond the power of the arbitrator if the findings of fact are not supported by substantial evidence or the award is based on an error of law. The award shall include written findings of fact, a summary of the evidence and reasons underlying the decision, and conclusions of law.

Either party may petition the court to correct or vacate the award; provided, however, that the contracting state department may not petition to vacate an award without prior written authorization by the relevant Agency Secretary.

"f. AWARD OF COSTS - The arbitrator may also award reasonable and necessary costs actually incurred by the prevailing party, including that party's share of the arbitrator's fees, costs and expenses, as well as any administration fees. The arbitrator may also include reasonable attorney fees in an award of costs if:

(i) the arbitrator finds that the party against whom the fees are assessed acted frivolously or in bad faith in its demand for, or participation in, the arbitration; or

Executive Department

State of California

PAGE FOUR

- (ii) not less than ten (10) days prior to the arbitration hearing the party made an offer in writing to settle the dispute which was not accepted prior to such hearing, and the arbitration award is less favorable to the opposing party than the offer of settlement; provided, however, the offering party may only be awarded attorney fees from the time of the offer.

If awarded, attorney fees shall not exceed the lowest rate incurred by either party, proof of which must include contemporaneous time records.

- "g. **SUBCONTRACTORS AND SUPPLIERS** - All contracts valued at more than \$15,000 between the general contractor and its subcontractors and suppliers shall include a provision that the subcontractors and suppliers shall be bound to the contractor to the same extent that the contractor is bound to the State by all terms and provisions of this contract, including the arbitration provision.
- "h. **WAIVER** - Nothing in this contract shall preclude the parties from waiving their right to arbitrate disputes under this contract and instead seeking relief in a court of competent jurisdiction. However, such a waiver must be by mutual written agreement executed after the dispute has arisen and approved on behalf of the state department by the relevant Agency Secretary.
- "i. **DEFINITIONS** - The term 'dispute' as used herein means any claim or demand for compensation or damages asserted by one party to this contract against the other party, arising under or relating to this contract which remains unresolved after exhausting all contractual remedies except arbitration.

The phrase 'Arbitration Committee' means

the committee of seven (7) members created by Executive Order B 50-78 issued December 8, 1978".

The Departments of General Services, Transportation and Water Resources are directed to adopt whatever uniform administrative regulations are required to implement this Order. The departments shall consult with the Arbitration Committee for advice and recommendations prior to promulgating such regulations.

2. Effective January 1, 1979, the contracting state agencies shall offer the construction contractor the opportunity to arbitrate any dispute involving an existing contract awarded under the State Contract Act in which trial has not commenced pursuant to the procedures set forth herein. Such arbitration shall be in lieu of any de novo judicial determination of the dispute, but shall not preclude judicial review of the arbitration award as provided herein.

With respect to the Department of Transportation, this provision shall apply only if the dispute is based on an exception to the Chief Engineer's proposed final estimate filed after January 1, 1979, or to litigation pending on or filed after January 1, 1979. However, if requested by a contractor, the Chief Engineer, in his discretion, may agree to submit any dispute under an existing contract not otherwise subject to this Order, which arises prior to January 1, 1979, to arbitration as provided herein.

3. The Office of Administrative Hearings shall provide whatever administrative services and facilities are required to implement this Order pursuant to arbitration rules adopted by, and interagency contracts executed with, the departments subject to this Order. Such services shall include collection of data necessary to evaluate the operation and effect of this Order. The Office shall recover the costs of such services through a filing fee imposed for each demand for arbitration.

The parties may also contract with the Office to provide an administrative law judge selected by mutual agreement to serve as their arbitrator.

4. The Arbitration Committee is hereby created consisting of seven members. Three members from the construction industry shall be appointed by the Associated General Contractors of California, of which at least one must be a nonmember of said association, and one member shall be appointed by each

of the three departments subject to this Order. The Director of the Office of Administrative Hearings, or his designee, shall be a nonvoting, ex officio member of the Committee and will provide the necessary fiscal and staff support for the Committee. Committee members shall serve voluntarily and without compensation, but will be reimbursed for their necessary expenses.

The Committee shall develop criteria for the selection of arbitrators, certify a panel of arbitrators meeting the Committee's criteria, and advise the Governor and departments subject to this Order on its implementation, including the development of arbitration rules as needed.

5. State agencies not expressly subject to this Order, the State University and Colleges, the University of California, and local governmental agencies, are urged to consider utilizing arbitration as provided by this Order to resolve disputes under their public construction contracts.

6. Unless modified by a subsequent Executive Order, this Order shall be effective until December 31, 1983. The departments subject to this Order shall evaluate the arbitration process and report to the Governor by July 1, 1983 with an analysis of its effectiveness, including any recommendations for modification or alternative procedures. In preparing their report, the departments shall consult with and include the recommendations of the Arbitration Committee.

PROCLAMATION

"If you will protest courageously, and yet with dignity and Christian love, when the history books are written in future generations, the historians will have to pause and say, 'There lived a great people -- a black people -- who injected new meaning and dignity into the views of civilization.'"

These are the words of Martin Luther King, Jr. in the heated days of the civil rights movement. He was a man who spoke of enduring principles with great eloquence and who lived by the principles he espoused. Martin Luther King was equal to the challenges of his time. His words bear rereading and his actions bear recalling especially on this day, the 50th anniversary of his birth.

I, therefore, proclaim in the State of California January 15, 1979 as Martin Luther King, Jr. Day.

I welcome the opportunity to join the world community in celebrating in 1979 the International Year of the Child. We take this occasion to renew and reaffirm our conviction that children in their beauty, strength and creativity are the currency of our dreams for the future.

of statistics
lie before us.
the steep climb
of everything, going up,

go down.

In the next century

we can meet there in peace
if we make it.

PROCLAMATION

Albert Einstein stands as a legendary figure of the 20th Century, and it is fitting that we pay tribute to his memory on the 100th anniversary of his birth.

Through his dedicated, brilliant work as a scientist, Einstein revolutionized the study of physics. He changed the fundamental concepts of space and time, and in doing so, changed mankind's perception of both his universe and himself. Einstein's masterwork, the general theory of relativity, gave birth to countless new discoveries in various fields of scientific study. Enduring the test of time, his work has been instrumental in the efforts of scientists to understand the amazing astronomical phenomena currently being discovered.

Our praise of his intellectual accomplishments, however, is not overshadowed by our admiration for him as a human being. Throughout his life, he demonstrated a simplicity uncommon in a man of such awesome reputation. His concern for humanity led him to courageously speak out against political and social injustice on numerous occasions. Certainly, his life serves as an inspiration to us all as we work to enhance the well-being of our society.

I, therefore, proclaim in the State of California March 14, 1979 as Albert Einstein Day.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Great Seal of the State of California to be affixed this 14th day of March, 1979.

When requested by the gasoline attendant, the customer shall permit inspection of the fuel gauge with the ignition key in the "on" position. No other minimum purchase requirements shall be imposed by any gasoline retailer.
5. No more than 20 gallons of gasoline shall be dispensed to any customer in any single transaction. No other maximum limit on purchases shall be imposed by any gasoline retailer.
6. When dispensing gasoline to the general public, gasoline retailers shall not refuse to sell gasoline to anyone, on appropriate odd or even days, except to refuse to sell gasoline to vehicles with more than one-half of a tankful of fuel. Such retailers shall remain open until they have sold on their required weekend day at least one-sixth of their weekly gasoline allocation.

COMMENT:

The California Division of Weights & Measures licenses each gasoline fuel pump in California. As part of the licensing process, they issue one location number to each service station. This number appears in the lower right corner of the fuel pump license, which is usually posted in the service station office.

 - (e) Any retailer who is exempt from all or part of Rule 7(b), because of either normal business practice or bonafide religious reasons, shall file with the Chairman of the California Energy Commission a statement, under penalty of perjury, setting forth the basis for the exemption.

In addition, each gasoline retailer shall post at each self-service station a sign that is readily legible from all pumps stating that it is unlawful to dispense gasoline into any vehicle that has more than one-half tankful of gasoline or to dispense more than 20 gallons of gasoline in any single transaction.

The notification shall include a firm delivery time for the gasoline and shall set forth the reasons for the delay.

These rules amend and revise Regulations for California's Gasoline Emergency implemented on May 8, 9 and 11, 1979.

IN WITNESS WHEREOF, I have hereunto set my hand caused the Great Seal of the State of California to be affixed this 15th day of May, 1979.

This amendment effectively excludes the area around the north end of the Salton Sea, including the community of Mecca.

I hereby incorporate, by reference, the regulations pertaining to the California Gasoline Emergency filed with the Secretary of State on the 15th day of May, 1979, and all subsequent amendments thereto and issue these regulations pursuant to Section 8567 of the California Government Code. REGULATIONS FOR CALIFORNIA'S GASOLINE EMERGENCY
(Revised May 23, 1979)

In light of counties now proclaimed to be in a "State of Emergency" and pursuant to the authority vested in me to promulgate, issue and enforce rules, regulations and orders, I deem the following amended and revised rules and regulations necessary for the protection of life and property:

1. At the retail level, gasoline may be dispensed into vehicles with a license plate whose last (or only) digit is an odd number (1, 3, 5, 7 and 9) only on odd numbered days of the month, that is, on the first, third, fifth, seventh and so on. Environmental license plates that contain letters only will be equivalent to the digit 1. Examples of odd number plates are as follows:

SAM 123
 123 SAM
 MARTHA
 KAM 2345
 12345J
 J12345

2. At the retail level, gasoline may be dispensed into vehicles with a license plate whose last (or only) digit is an even number (0, 2, 4, 6 and 8) only on even numbered days of the month, that is, on the second, fourth, sixth, eighth, tenth and so on. Vehicles without permanent registration, such as newly purchased vehicles, shall be considered as even number. Examples of even number plates are as follows:

SAM 132
 132 SAM
 DAVE 2
 2 MARY
 KMA 3456
 01234J
 J01234
 W6ABC

3. For any calendar month in which there are 31 days, gasoline may be dispensed on the thirty-first day of the month without regard to the license plates of the motor vehicle.

4. Gasoline may not be dispensed into any vehicle that has more than one-half tankful of gasoline. When requested by the gasoline retailer, his employee, or any peace officer, the vehicle operator shall permit inspection of the fuel gauge with the ignition key in the "on" position. No other minimum purchase requirements shall be imposed by any gasoline retailer.

Executive Department

State of California

5. No more than 20 gallons of gasoline shall be dispensed to any customer in any single transaction. No other maximum limit on purchases shall be imposed by any gasoline retailer.

This rule shall not apply to:

- (a) Any carwash for which a statement has been filed pursuant to Rule 19;
 - (b) The dispensing of gasoline into trucks which either (1) have a California Public Utilities Commission permit or certificate, (2) are hauling agricultural products, or (3) in the judgment of the gasoline retailer, are otherwise engaged in hauling for a commercial purpose;
 - (c) The dispensing of gasoline into an industrial sized drum used for an identifiable commercial purpose such as fueling construction and farm equipment and fueling electrical generators. Evidence of a commercial purpose as demonstrated by possession of a business license or similar license.
6. When dispensing gasoline to the general public, gasoline retailers shall not refuse to sell gasoline to anyone, on appropriate odd or even days, except to refuse to sell gasoline to vehicles with more than one-half of a tankful of fuel. Gasoline retailers shall not require the purchase of special goods and services, including, but not limited to, car washes, tires, or car lubrication, as a condition to the dispensing of gasoline. In addition, except as otherwise provided in Rules 11 and 12, retailers shall not dispense gasoline on a preferential basis such as an appointment system.

COMMENT:

It is a violation of this rule for a gasoline retailer to be open only for dispensing gasoline to commercial vehicles or commercial accounts and not be dispensing gasoline to the general public.

7. (a) Each gasoline retailer shall clearly post by signs legible from off the premises the days and hours gasoline will be dispensed to the general public, including, but not limited to,

Executive Department

State of California

which weekend day and time they will be open. The gasoline retailer shall dispense gasoline during the days and hours posted on the sign.

- (b) Each gasoline retailer shall open at the hour posted pursuant to rule 7(a) on each Saturday of the month if his gasoline motor fuel pump location number is odd, or on each Sunday of the month if his gasoline motor fuel pump location number is even, and shall dispense gasoline to the public until he has sold at least one-sixth of his weekly gasoline allocation.

COMMENT:

The purpose of this rule is to ensure that the opening of large stations on weekends is evenly distributed between Saturday and Sunday.

The California Division of Weights & Measures licenses each gasoline fuel pump in California. As part of the licensing process, they issue one location number to each service station. This number appears in the lower right corner of the fuel pump license, which is usually posted in the service station office.

- (c) Rule 7(b) shall not apply to any gasoline retailer who:
- (1) is out of gasoline because of late delivery;
 - (2) as a normal business practice prior to February 1, 1979 remained closed on Saturday and Sunday; or
 - (3) had a gasoline sales volume of less than 750,000 gallons in 1978.
- (d) A retailer with an odd gasoline motor fuel pump location number may, for bonafide religious reasons, open on Sunday instead of Saturday, and a retailer with an even gasoline motor fuel pump location number may, for bonafide religious reasons, open on Saturday instead of Sunday.
- (e) In order to claim an exemption from all or part of Rule 7(b), because of either normal business practice or bonafide religious reasons, any retailer shall first file with the Chairman of the California Energy Commission a statement, under penalty of perjury, setting forth the basis for the exemption.

Executive Department

State of California

8. Each gasoline retailer shall prominently display a full and complete copy of these rules in an accessible location. In addition, each gasoline retailer shall post at each self-service station a sign that is readily legible from all pumps stating that it is unlawful to dispense gasoline into any vehicle that has more than one-half tankful of gasoline or to dispense more than 20 gallons of gasoline in any single transaction.
9. Each gasoline retailer shall manage his monthly fuel allocation so that it will last through the month and to ensure that at least one-sixth of the weekly supply is available for sale on weekends.

COMMENT:

The purposes of this rule are to ensure that gasoline stations are open throughout the month and that stations have adequate supply to open on at least one day of the weekend. If this rule is followed, most stations should be open on either Saturday or Sunday.

10. Each gasoline retailer shall clearly indicate his gasoline supply and service situation by a flag of at least 18 inches square easily visible from off the premises. The following will apply:

Green flag--gasoline available for the general public (on appropriate days for appropriate license plates); yellow flag--gasoline available for emergency vehicles only and automobile servicing available to the general public; red flag--out of gasoline and/or closed. In addition, if a retailer is out of any grade of gasoline, but is otherwise still dispensing gasoline to the general public, the retailer shall indicate on a sign legible from off the premises which grades are not available.

11. The following vehicles are exempt from sections 1 and 2 of these orders:
 - a) Public transportation vehicles regularly used to transport passengers such as buses, taxis and vehicles rented for less than 30 days.
 - b) Vehicles used for commercial purposes in the judgment of the gasoline retailer. (See additional guidance, Attachment A)

VTR000 through VTR999
000VET through 999VET
000VTN through 999VTN
000VTR through 999VTR

Any vehicle displaying a disabled person placard issued by the California Department of Motor Vehicles.

- e) Vehicles with out-of-state license plates.
- f) Vehicles operated by persons whose residence addresses as shown on their drivers licenses are more than 100 miles distance from the place of gasoline purchase. This exemption shall only apply to the dispensing of gasoline in Monterey County.
- g) Vehicles transporting patients who present a Los Angeles or Orange County physician's signed exemption statement to the gasoline retailer. This exemption shall only apply until August 10, 1979.

Operators of the above exempt vehicles are urged to purchase gasoline only on appropriate alternate days whenever possible.

12. The following vehicles are exempt from the provisions of these orders:
- a) Emergency vehicles as defined in Section 165 of the California Vehicle Code (See attachment B).
- b) Other emergency repair and service vehicles, whether public or private, used for functions directly related to the protection of life, property or public health.
- c) Vehicles operated in an unusual emergency situation in the judgment of the gasoline retailer.
- d) Motorcycles, mopeds, and similar two-wheel vehicles.

Executive Department

State of California

13. At the retail level, no more than two gallons of gasoline may be dispensed into a separate container, and no more than one separate container may be used in a single transaction.

This rule shall not apply to containers used for a commercial purpose such as containers used to fuel commercial landscaping and gardening equipment, construction equipment, or electrical generators.

COMMENT:

Storage of gasoline in separate containers in the trunk of automobiles is an extremely dangerous practice.

14. Unless otherwise specified, the provisions of these regulations, including, but not limited to, Rules (1), (2), (4), (5), and (6), apply to a vehicle operator, an employee of a gasoline retailer, and a gasoline retailer. A violation of these regulations may result in a criminal charge against each of these persons. The term "gasoline retailer" as used in these regulations includes every person, firm, partnership, association, trustee or corporation, owning, leasing, renting, managing or operating a gasoline service station or other facility offering for sale, selling or otherwise dispensing gasoline to the general public.
15. Pursuant to the authority of Section 8665 of the Government Code, any willful violation of these orders or regulations is a misdemeanor and upon conviction, shall be punishable by a fine of not to exceed five hundred dollars (\$500) or by imprisonment not to exceed six months or by both such fine and imprisonment.
16. Local authorities shall have the responsibility for monitoring and enforcing these regulations. Any violation should be reported to local law enforcement officials.
17. Any County Board of Supervisors may submit proposed clarifications of these rules to the Chairperson of the California Energy Commission. Such clarifications shall take effect upon the concurrence of the Energy Commission Chairperson. No changes to these rules shall occur unless submitted to the Energy Commission Chairperson and adopted by a written order of the Governor.

Individually owned vehicles used for commercial purposes, as evidenced by the presence of specialized equipment, instruments, tools of the trade or profession, supplies or other material which cannot be readily carried by the vehicle operator on public transportation, or any other evidence that it is necessary to use the vehicle for commercial purposes.
2. Doctors and Nurses: No blanket exemption is made for doctors and nurses. However, when they are using their vehicles for professional purposes (such as special calls) their vehicles should be considered as those being used for commercial purposes and when using their vehicles for emergency calls they should be considered emergency vehicles. Physicians and nurses are expected to do the same planning in fueling their vehicles for private use as are other citizens. In extreme emergency situations, they can call upon taxis, ambulances, or the local law enforcement agency.

PROCLAMATION

I, EDMUND G. BROWN JR., Governor of the State of California,
proclaim as follows:

That conditions of extreme peril to the safety of persons and
property prevailed at the time of a previous proclamation of May 11, 1979,
as pertains to all that portion of Monterey County lying south of a line
extending from the intersection of Camphora Road and Silliman Road due east
to the Monterey-San Benito County line, and east of a line extending due
south from that same intersection to the Pacific Ocean:

That it was proclaimed that a State of Emergency existed in the
described area:

That I now find that a State of Emergency no longer exists in
said area and that the local authorities are now able to cope with the
situation:

Now, therefore, I proclaim that a State of Emergency no longer
exists effective immediately in the above described area, and therefore
the regulations for California's Gasoline Emergency filed with the Secretary
of State on May 23, 1979, are no longer in effect in the described area.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the
Great Seal of the State of California to be affixed this 7th day of

PROCLAMATION

I, EDMUND G. BROWN JR., Governor of the State of California, having proclaimed that conditions of extreme peril to the safety of persons and property prevailed in that portion of San Bernardino County as described in my proclamation of a State of Emergency signed on the 8th day of May, 1979, do now find, at the request of the Board of Supervisors, it is necessary to amend the May 8, 1979 proclamation of a State of Emergency to exclude that portion of the County of San Bernardino generally known as the Big Bear area where the State of Emergency no longer exists.

The new description of that area of San Bernardino County where conditions of extreme peril to the safety of persons and property yet prevail is that portion of the County of San Bernardino bounded on the north and east by a line beginning at the intersection of the boundary line between San Bernardino and Los Angeles Counties and the north line of Township 3 North, Range 7 West, SBB & M; thence east along the northern boundary of the San Bernardino National Forest to the range line between Ranges 1 and 2 West; thence south to the township line between Townships 1 and 2 North; thence east to the San Bernardino National Forest boundary; thence southerly and westerly along the San Bernardino National Forest boundary line to the intersection of the San Bernardino-Riverside County line.

Also to be excluded is a corridor of land consisting of that portion of Interstate Highways I-15E and I-15 and land lying within one-half mile of either side thereof beginning at a point on I-15E one-half mile southeasterly of the intersection of I-15E and Main Street, Devore, thence generally in a northerly direction following I-15E and I-15 to the north boundary of the San Bernardino National Forest.

Now, therefore, I proclaim that a State of Emergency no longer exists, effective immediately, in the area generally known as the Big Bear area and in the corridor described above, and therefore the regulations for California's Gasoline Emergency filed with the Secretary of State on May 23, 1979, are no longer effective in these excluded areas.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Great Seal of the State of California to be affixed this 7th day of June, 1979.

REGULATIONS FOR CALIFORNIA'S GASOLINE EMERGENCY

(Revised June 7, 1979)

In light of counties now proclaimed to be in a "State of Emergency" and pursuant to the authority vested in me to promulgate, issue and enforce rules, regulations and orders, I deem the following amended and revised rules and regulations necessary for the protection of life and property:

1. At the retail level, gasoline may be dispensed into vehicles with a license plate whose last (or only) digit is an odd number (1, 3, 5, 7 and 9) only on odd numbered days of the month, that is, on the first, third, fifth, seventh and so on. Environmental license plates that contain letters only will be equivalent to the digit 1. Examples of odd number plates are as follows:

SAM 123
123 SAM
MARTHA
KAM 2345
12345J
J12345

2. At the retail level, gasoline may be dispensed into vehicles with a license plate whose last (or only) digit is an even number (0, 2, 4, 6 and 8) only on even numbered days of the month, that is, on the second, fourth, sixth, eighth, tenth and so on. Vehicles without permanent registration, such as newly purchased vehicles, shall be considered as even number. Examples of even number plates are as follows:

SAM 132
132 SAM
DAVE 2
2 MARY
KMA 3456
01234J
J01234
W6ABC

3. For any calendar month in which there are 31 days, gasoline may be dispensed on the thirty-first day of the month without regard to the license plates of the motor vehicle.
4. Gasoline may not be dispensed into any vehicle that has more than one-half tankful of gasoline. When requested by the gasoline retailer, his employee, or any peace officer, the vehicle operator shall permit inspection of the fuel gauge with the ignition key in the "on" position. No other minimum purchase requirements shall be imposed by any gasoline retailer.

Executive Department

State of California

5. No more than 20 gallons of gasoline shall be dispensed to any customer in any single transaction. No other maximum limit on purchases shall be imposed by any gasoline retailer.

This rule shall not apply to:

- (a) Any carwash for which a statement has been filed pursuant to Rule 19;
 - (b) The dispensing of gasoline into trucks which either (1) have a California Public Utilities Commission permit or certificate, (2) are hauling agricultural products, or (3) in the judgment of the gasoline retailer, are otherwise engaged in hauling for a commercial purpose;
 - (c) The dispensing of gasoline into an industrial sized drum used for an identifiable commercial purpose such as fueling construction and farm equipment and fueling electrical generators. Evidence of a commercial purpose as demonstrated by possession of a business license or similar license.
6. When dispensing gasoline to the general public, gasoline retailers shall not refuse to sell gasoline to anyone, on appropriate odd or even days, except to refuse to sell gasoline to vehicles with more than one-half of a tankful of fuel. Gasoline retailers shall not require the purchase of special goods and services, including, but not limited to, car washes, tires, or car lubrication, as a condition to the dispensing of gasoline. In addition, except as otherwise provided in Rules 10b, 11 and 12, retailers shall not dispense gasoline on a preferential basis such as an appointment system.
7. (a) Each gasoline retailer shall clearly post by signs legible from off the premises the days and hours gasoline will be dispensed to the general public, including, but not limited to,

Executive Department

State of California

which weekend day and time they will be open. The gasoline retailer shall dispense gasoline during the days and hours posted on the sign.

- (b) Each gasoline retailer shall open at the hour posted pursuant to rule 7(a) on each Saturday of the month if his gasoline motor fuel pump location number is odd, or on each Sunday of the month if his gasoline motor fuel pump location number is even, and shall dispense gasoline to the public until he has sold at least one-sixth of his weekly gasoline allocation.

COMMENT:

The purpose of this rule is to ensure that the opening of large stations on weekends is evenly distributed between Saturday and Sunday.

The California Division of Weights & Measures licenses each gasoline fuel pump in California. As part of the licensing process, they issue one location number to each service station. This number appears in the lower right corner of the fuel pump license, which is usually posted in the service station office.

- (c) Rule 7(b) shall not apply to any gasoline retailer who:
- (1) is out of gasoline because of late delivery;
 - (2) as a normal business practice prior to February 1, 1979 remained closed on Saturday and Sunday; or
 - (3) had a gasoline sales volume of less than 750,000 gallons in 1978.
- (d) A retailer with an odd gasoline motor fuel pump location number may, for bonafide religious reasons, open on Sunday instead of Saturday, and a retailer with an even gasoline motor fuel pump location number may, for bonafide religious reasons, open on Saturday instead of Sunday.
- (e) In order to claim an exemption from all or part of Rule 7(b), because of either normal business practice or bonafide religious reasons, any retailer shall first file with the Chairman of the California Energy Commission a statement, under penalty of perjury, setting forth the basis for the exemption.

Executive Department

State of California

8. Each gasoline retailer shall prominently display a full and complete copy of these rules in an accessible location. In addition, each gasoline retailer shall post at each self-service station a sign that is readily legible from all pumps stating that it is unlawful to dispense gasoline into any vehicle that has more than one-half tankful of gasoline or to dispense more than 20 gallons of gasoline in any single transaction.
9. Each gasoline retailer shall manage his monthly fuel allocation so that it will last through the month and to ensure that at least one-sixth of the weekly supply is available for sale on weekends.

COMMENT:

The purposes of this rule are to ensure that gasoline stations are open throughout the month and that stations have adequate supply to open on at least one day of the weekend. If this rule is followed, most stations should be open on either Saturday or Sunday.

- 10a. Each gasoline retailer shall clearly indicate his gasoline supply and service situation by a flag of at least 18 inches square easily visible from off the premises. The following will apply:

Green flag--gasoline available for the general public (on appropriate days for appropriate license plates); yellow flag--gasoline available for emergency vehicles only and automobile servicing available to the general public; red flag--out of gasoline and/or closed. In addition, if a retailer is out of any grade of gasoline, but is otherwise still dispensing gasoline to the general public, the retailer shall indicate on a sign legible from off the premises which grades are not available.

- 10b. A gasoline retailer may dispense gasoline under the yellow flag to a commercial account without being open to the general public if that account was established with that retailer prior to May 1, 1979. Any gasoline retailer proposing to serve commercial accounts under the yellow flag shall first file with the Energy Commission a statement under penalty of perjury listing each such account to be so served.
11. The following vehicles are exempt from sections 1 and 2 of these orders:

Executive Department

State of California

- a) Public transportation vehicles regularly used to transport passengers such as buses, taxis and vehicles rented for less than 30 days.
- b) Vehicles used for commercial purposes in the judgment of the gasoline retailer. (See additional guidance, Attachment A)
- c) U.S. Postal Service Vehicles.
- d) Vehicles operated by handicapped persons, who have no practical alternative to auto transportation, as designated by the following license plate letters:

DPW000 through DPZ999
000DPW through 000DPZ
000RDP through 999ZDP
1DPA000 through 1DPZ999
VET000 through VET999
VTN000 through VTN999
VTR000 through VTR999
000VET through 999VET
000VTN through 999VTN
000VTR through 999VTR

Any vehicle displaying a disabled person placard issued by the California Department of Motor Vehicles.

- e) Vehicles with out-of-state license plates.
- f) Vehicles operated by persons whose residence addresses as shown on their drivers licenses are more than 100 miles distance from the place of gasoline purchase. This exemption shall only apply to the dispensing of gasoline in Monterey County.
- g) Vehicles transporting patients who present a Los Angeles or Orange County physician's signed exemption statement to the gasoline retailer. This exemption shall only apply until August 10, 1979.

Operators of the above exempt vehicles are urged to purchase gasoline only on appropriate alternate days whenever possible.

12. The following vehicles are exempt from the provisions of these orders:

- a) Emergency vehicles as defined in Section 165 of the California Vehicle Code (See attachment B).

Executive Department

State of California

- b) Other emergency repair and service vehicles, whether public or private, used for functions directly related to the protection of life, property or public health.
 - c. Vehicles operated in an unusual emergency situation in the judgment of the gasoline retailer.
 - d. Motorcycles, mopeds, and similar two-wheel vehicles.
13. At the retail level, no more than two gallons of gasoline may be dispensed into a separate container, and no more than one separate container may be used in a single transaction.

This rule shall not apply to containers used for a commercial purpose such as containers used to fuel commercial landscaping and gardening equipment, construction equipment, or electrical generators.

COMMENT:

Storage of gasoline in separate containers in the trunk of automobiles is an extremely dangerous practice.

14. Unless otherwise specified, the provisions of these regulations, including, but not limited to, Rules (1), (2), (4), (5), and (6), apply to a vehicle operator, an employee of a gasoline retailer, and a gasoline retailer. A violation of these regulations may result in a criminal charge against each of these persons. The term "gasoline retailer" as used in these regulations includes every person, firm, partnership, association, trustee or corporation, owning, leasing, renting, managing or operating a gasoline service station or other facility offering for sale, selling or otherwise dispensing gasoline to the general public.
15. Pursuant to the authority of Section 8665 of the Government Code, any willful violation of these orders or regulations is a misdemeanor and upon conviction, shall be punishable by a fine of not to exceed five hundred dollars (\$500) or by imprisonment not to exceed six months or by both such fine and imprisonment.
16. Local authorities shall have the responsibility for monitoring and enforcing these regulations. Any violation should be reported to local law enforcement officials.

ADDITIONAL GUIDANCE

1. Retailers shall use these guidelines in determining whether a vehicle is used for commercial purposes.
 - A. Vehicles which by their design, size, or recognizable company identification are obviously being used for commercial purposes.

2. Doctors and Nurses: No blanket exemption is made for doctors and nurses. However, when they are using their vehicles for professional purposes (such as special calls) their vehicles should be considered as those being used for commercial purposes and when using their vehicles for emergency calls they should be considered emergency vehicles. Physicians and nurses are expected to do the same planning in fueling their vehicles for private use as are other citizens. 5. No more than 20 gallons of gasoline shall be dispensed to any customer in any single transaction. No other maximum limit on purchases shall be imposed by any gasoline retailer.

This rule shall not apply to:

- (a) Any carwash for which a statement has been filed pursuant to Rule 19;
 - (b) The dispensing of gasoline into trucks which either (1) have a California Public Utilities Commission permit or certificate, (2) are hauling agricultural products, or (3) in the judgment of the gasoline retailer, are otherwise engaged in hauling for a commercial purpose;
 - (c) The dispensing of gasoline into an industrial sized drum used for an identifiable commercial purpose such as fueling construction and farm equipment and fueling electrical generators. Evidence of a commercial purpose as demonstrated by possession of a business license or similar license.
 - (d) The dispensing of gasoline into buses, vanpools, or similar public transportation vehicles.
6. When dispensing gasoline to the general public, gasoline retailers shall not refuse to sell gasoline to anyone, on appropriate odd or even days, except to refuse to sell gasoline to vehicles with more than one-half of a tankful of fuel. Gasoline retailers shall not require the purchase of special goods and services, including, but not limited to, car washes, tires, or car lubrication, as a condition to the dispensing of gasoline. In addition, except as otherwise provided in Rules 10b, 11 and 12, retailers shall not dispense gasoline on a preferential basis such as an appointment system.
7. (a) Each gasoline retailer shall clearly post by signs legible from off the premises the days and hours gasoline will be dispensed to the general public, including, but not limited to,

Executive Department

State of California

which weekend day and time they will be open. The gasoline retailer shall dispense gasoline during the days and hours posted on the sign.

- (b) Each gasoline retailer shall open at the hour posted pursuant to rule 7(a) on each Saturday of the month if his gasoline motor fuel pump location number is odd, or on each Sunday of the month if his gasoline motor fuel pump location number is even, and shall dispense gasoline to the public until he has sold at least one-sixth of his weekly gasoline allocation.

COMMENT:

The purpose of this rule is to ensure that the opening of large stations on weekends is evenly distributed between Saturday and Sunday.

The California Division of Weights & Measures licenses each gasoline fuel pump in California. As part of the licensing process, they issue one location number to each service station. This number appears in the lower right corner of the fuel pump license, which is usually posted in the service station office.

- (c) Rule 7(b) shall not apply to any gasoline retailer who:
- (1) is out of gasoline because of late delivery;
 - (2) as a normal business practice prior to February 1, 1979 remained closed on Saturday and Sunday; or
 - (3) had a gasoline sales volume of less than 750,000 gallons in 1978.
- (d) A retailer with an odd gasoline motor fuel pump location number may, for bonafide religious reasons, open on Sunday instead of Saturday, and a retailer with an even gasoline motor fuel pump location number may, for bonafide religious reasons, open on Saturday instead of Sunday.
- (e) In order to claim an exemption from all or part of Rule 7(b), because of either normal business practice or bonafide religious reasons, any retailer shall first file with the Chairman of the California Energy Commission a statement, under penalty of perjury, setting forth the basis for the exemption.

Executive Department

State of California

8. Each gasoline retailer shall prominently display a full and complete copy of these rules in an accessible location. In addition, each gasoline retailer shall post at each self-service station a sign that is readily legible from all pumps stating that it is unlawful to dispense gasoline into any vehicle that has more than one-half tankful of gasoline or to dispense more than 20 gallons of gasoline in any single transaction.
9. Each gasoline retailer shall manage his monthly fuel allocation so that it will last through the month and to ensure that at least one-sixth of the weekly supply is available for sale on weekends.

COMMENT:

The purposes of this rule are to ensure that gasoline stations are open throughout the month and that stations have adequate supply to open on at least one day of the weekend. If this rule is followed, most stations should be open on either Saturday or Sunday.

- 10a. Each gasoline retailer shall clearly indicate his gasoline supply and service situation by a flag of at least 18 inches square easily visible from off the premises. The following will apply:

Green flag--gasoline available for the general public (on appropriate days for appropriate license plates); yellow flag--gasoline available for emergency vehicles only and automobile servicing available to the general public; red flag--out of gasoline and/or closed. In addition, if a retailer is out of any grade of gasoline, but is otherwise still dispensing gasoline to the general public, the retailer shall indicate on a sign legible from off the premises which grades are not available.

- 10b. A gasoline retailer may dispense gasoline under the yellow flag to a commercial account without being open to the general public if that account was established with that retailer prior to May 1, 1979. Any gasoline retailer proposing to serve commercial accounts under the yellow flag shall first file with the Energy Commission a statement under penalty of perjury listing each such account to be so served.
11. The following vehicles are exempt from sections 1 and 2 of these orders:

Executive Department

State of California

- a) Public transportation vehicles regularly used to transport passengers such as buses, taxis and vehicles rented for less than 30 days.
- b) Vehicles used for commercial purposes in the judgment of the gasoline retailer. (See additional guidance, Attachment A)
- c) U.S. Postal Service Vehicles.
- d) Vehicles operated by handicapped persons, who have no practical alternative to auto transportation, as designated by the following licenses plate letters:

DPW000 through DPZ999
000DPW through 000DPZ
000RDP through 999ZDP
1DPA000 through 1DPZ999
VET000 through VET999
VTN000 through VTN999
VTR000 through VTR999
000VET through 999VET
000VTN through 999VTN
000VTR through 999VTR
DPR000 through DPV999
RDP000 through ZDP999
000DPR through 999DPV

Any vehicle displaying a disabled person placard issued by the California Department of Motor Vehicles.

- e) Vehicles with out-of-state license plates.
- f) Vehicles operated by persons whose residence addresses as shown on their drivers licenses are more than 100 miles distance from the place of gasoline purchase. This exemption shall only apply to the dispensing of gasoline in Monterey County.
- g) Vehicles transporting patients who present a Los Angeles or Orange County physician's signed exemption statement to the gasoline retailer. This exemption shall only apply until August 10, 1979.

Operators of the above exempt vehicles are urged to purchase gasoline only on appropriate alternate days whenever possible.

12. The following vehicles are exempt from the provisions of these orders:

- a) Emergency vehicles as defined in Section 165 of the California Vehicle Code (See attachment B).

Executive Department

State of California

- b) Other emergency repair and service vehicles, whether public or private, used for functions directly related to the protection of life, property or public health.
 - c. Vehicles operated in an unusual emergency situation in the judgment of the gasoline retailer.
 - d. Motorcycles, mopeds, and similar two-wheel vehicles.
13. At the retail level, no more than two gallons of gasoline may be dispensed into a separate container, and no more than one separate container may be used in a single transaction.

This rule shall not apply to containers used for a commercial purpose such as containers used to fuel commercial landscaping and gardening equipment, construction equipment, or electrical generators.

COMMENT:

Storage of gasoline in separate containers in the trunk of automobiles is an extremely dangerous practice.

14. Unless otherwise specified, the provisions of these regulations, including, but not limited to, Rules (1), (2), (4), (5), and (6), apply to a vehicle operator, an employee of a gasoline retailer, and a gasoline retailer. A violation of these regulations may result in a criminal charge against each of these persons. The term "gasoline retailer" as used in these regulations includes every person, firm, partnership, association, trustee or corporation, owning, leasing, renting, managing or operating a gasoline service station or other facility offering for sale, selling or otherwise dispensing gasoline to the general public.
15. Pursuant to the authority of Section 8665 of the Government Code, any willful violation of these orders or regulations is a misdemeanor and upon conviction, shall be punishable by a fine of not to exceed five hundred dollars (\$500) or by imprisonment not to exceed six months or by both such fine and imprisonment.
16. Local authorities shall have the responsibility for monitoring and enforcing these regulations. Any violation should be reported to local law enforcement officials.

Executive Department

State of California

17. Any County Board of Supervisors may submit proposed clarifications of these rules to the Chairperson of the California Energy Commission. Such clarifications shall take effect upon the concurrence of the Energy Commission Chairperson. No changes to these rules shall occur unless submitted to the Energy Commission Chairperson and adopted by a written order of the Governor.
18. Rule #10 shall not take effect until seven (7) days after the date of proclamation of emergency for that county. Rule #8 shall not take effect until May 30, 1979.
19. Notwithstanding any of the provisions of these regulations or other state or local law, Rules (1), (2), and (5) shall not apply to any person dispensing gasoline into a vehicle that receives a carwash as part of the transaction from a business whose primary purpose as of May 1, 1979, is offering that service. This rule shall apply only to these businesses which file with the Energy Commission a statement under penalty of perjury that their primary purpose as of May 1, 1979, was providing carwashes and not the sale of gasoline.
20. If a retailer orders gasoline in accordance with his monthly allocation and his supplier cannot deliver that gasoline within forty-eight hours of the time the order is placed, the supplier shall immediately notify the retailer. The notification shall include a firm delivery time for the gasoline and shall set forth the reasons for the delay.

These rules amend and revise Regulations for California's Gasoline Emergency implemented on May 8, 9, 11, 15, 23, and June 7, 1979.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Great Seal of the State of California to be affixed this 13th day of July 1979.

PROCLAMATION
OF
STATE OF EMERGENCY

I, EDMUND G. BROWN JR., Governor of the State of California, find conditions of extreme peril to the safety of persons and property are likely to exist within the State of California as a result of a potential sudden and serious gasoline shortage which may be caused by the decision announced yesterday by the President of the United States to cease oil imports from Iran. I do hereby proclaim a State of Emergency to exist in all the following counties effective 0001 hours, Monday, November 19, 1979:

Alameda	San Francisco
Contra Costa	San Diego
Los Angeles	Santa Clara
Marin	Santa Cruz
Monterey	San Mateo
Orange	Sonoma
Riverside	Ventura

and that portion of San Bernardino County described in my proclamation of May 8, 1979, as follows: lying southerly and westerly of a line beginning at the intersection of the boundary line between San Bernardino and Los Angeles Counties and the north line of Township 3 North, Range 7 West, SBB & M, thence east along the township line to the northeast corner of Section 3, Township 3 North, Range 6 West, thence southerly and easterly following the boundary line between San Bernardino and Riverside Counties.

I hereby incorporate by reference the regulations pertaining to the California gasoline emergency to be filed with the Secretary of State not later than 5 p.m. Wednesday, November 14, 1979.

Furthermore, I direct the aforementioned program shall begin in the remainder of San Bernardino County and in all remaining counties within the State of California at 0001 hours, December 3, 1979.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Great Seal of the State of California to be affixed this 13th day of November 1979.

REGULATIONS FOR CALIFORNIA'S GASOLINE EMERGENCY

In light of counties now proclaimed to be in a "State of Emergency" and pursuant to the authority vested in me to promulgate, issue and enforce rules, regulations and orders, I deem the following amended and revised rules and regulations necessary for the protection of life and property:

1. At the retail level, gasoline may be dispensed into vehicles with a license plate whose last (or only) digit is an odd number (1, 3, 5, 7 and 9) only on odd numbered days of the month, that is, on the first, third, fifth, seventh and so on. Environmental license plates that contain letters only will be equivalent to the digit 1. Examples of odd number plates are as follows:

SAM 123
 123 SAM
 MARTHA
 KAM 2345
 12345J
 J12345

2. At the retail level, gasoline may be dispensed into vehicles with a license plate whose last (or only) digit is an even number (0, 2, 4, 6 and 8) only on even numbered days of the month, that is, on the second, fourth, sixth, eighth, tenth and so on. Vehicles without permanent registration, such as newly purchased vehicles, shall be considered as even number. Examples of even number plates are as follows:

SAM 132
 132 SAM
 DAVE 2
 2 MARY
 KMA 3456
 01234J
 J01234
 W6ABC

3. For any calendar month in which there are 31 days, gasoline may be dispensed on the thirty-first day of the month without regard to the license plates of the motor vehicle.
4. Gasoline may not be dispensed into any vehicle that has more than one-half tankful of gasoline. When requested by the gasoline retailer, his employee, or any peace officer, the vehicle operator shall permit inspection of the fuel gauge with the ignition key in the "on" position. No other minimum purchase requirements shall be imposed by any gasoline retailer.

Executive Department

State of California

5. No more than 20 gallons of gasoline shall be dispensed to any customer in any single transaction. No other maximum limit on purchases shall be imposed by any gasoline retailer.

This rule shall not apply to:

- (a) Any carwash for which a statement has been filed pursuant to Rule 19;
 - (b) The dispensing of gasoline into trucks which either (1) have a California Public Utilities Commission permit or certificate, (2) are hauling agricultural products, or (3) in the judgment of the gasoline retailer, are otherwise engaged in hauling for a commercial purpose;
 - (c) The dispensing of gasoline into an industrial sized drum used for an identifiable commercial purpose such as fueling construction and farm equipment and fueling electrical generators. Evidence of a commercial purpose may be demonstrated by possession of a business license or so, o; ar license.
6. When dispensing gasoline to the general public, gasoline retailers shall not refuse to sell gasoline to anyone, on appropriate odd or even days, except to refuse to sell gasoline to vehicles with more than one-half of a tankful of fuel. Gasoline retailers shall not require the purchase of special goods and services, including, but not limited to, car washes, tires, or car lubrication, as a condition to the dispensing of gasoline. In addition, except as otherwise provided in Rules 10b, 11 and 12 retailers shall not dispense gasoline on a preferential basis such as an appointment system.
7. (a) Each gasoline retailer shall clearly post by signs legible from off the premises the days and hours gasoline will be dispensed to the general public, including, but not limited to, which weekend day and time they will be open. The gasoline retailer shall dispense gasoline during the days and hours posted on the sign.
- (b) Each gasoline retailer shall open at the hour posted pursuant to rule 7(a) on each Saturday of the month if his gasoline motor fuel pump location number is odd, or on each Sunday of the month if his gasoline motor fuel pump location number is even, and shall dispense gasoline to the public until he has sold at least one-sixth of his weekly gasoline allocation.

Executive Department
State of California

COMMENT:

The purpose of this rule is to ensure that the opening of large stations on weekends is evenly distributed between Saturday and Sunday.

The California Division of Weights & Measures licenses each gasoline fuel pump in California. As part of the licensing process, they issue one location number to each service station. This number appears in the lower right corner of the fuel pump license, which is usually posted in the service station office.

- (c) Rule 7(b) shall not apply to any gasoline retailer who:
- (1) is out of gasoline because of late delivery;
 - (2) as a normal business practice prior to February 1, 1979 remained closed on Saturday and Sunday; or
 - (3) has less than six gasoline pumps installed at the service station.
- (d) A retailer with an odd gasoline motor fuel pump location number may, for bonafide religious reasons, open on Sunday instead of Saturday, and a retailer with an even gasoline motor fuel pump location number may, for bonafide religious reasons, open on Saturday instead of Sunday.
- (e) In order to claim an exemption from all or part of Rule 7(b), because of either normal business practice or bonafide religious reasons, any retailer shall first file with the Chairman of the California Energy Commission a statement, under penalty of perjury, setting forth the basis for the exemption.
8. Each gasoline retailer shall prominently display a full and complete copy of these rules in an accessible location. In addition, each gasoline retailer shall post at each self-service station a sign that is readily legible from all pumps stating that it is unlawful to dispense gasoline into any vehicle that has more than one-half tankful of gasoline or to dispense more than 20 gallons of gasoline in any single transaction.

Executive Department

State of California

9. Each gasoline retailer shall manage his monthly fuel allocation so that it will last through the month and to ensure that at least one-sixth of the weekly supply is available for sale on weekends.

COMMENT:

The purposes of this rule are to ensure that gasoline stations are open throughout the month and that stations have adequate supply to open on at least one day of the weekend. If this rule is followed, most stations should be open on either Saturday or Sunday.

- 10a. Each gasoline retailer shall clearly indicate his gasoline supply and service situation by a flag of at least 18 inches square easily visible from off the premises. The following will apply:

Green flag--gasoline available for the general public (on appropriate days for appropriate license plates); yellow flag--gasoline available for emergency vehicles only and automobile servicing available to the general public; red flag--out of gasoline and/or closed. In addition, if a retailer is out of any grade of gasoline, but is otherwise still dispensing gasoline to the general public, the retailer shall indicate on a sign legible from off the premises which grades are not available.

- 10b. A gasoline retailer may dispense gasoline under the yellow flag to a commercial account without being open to the general public if that account was established with that retailer prior to May 1, 1979. Any gasoline retailer proposing to serve commercial accounts under the yellow flag shall first file with the Energy Commission a statement under penalty of perjury listing each such account to be so served.

11. The following vehicles are exempt from sections 1 and 2 of these orders:
- a) Public transportation vehicles regularly used to transport passengers such as buses, taxis and vehicles rented for less than 30 days.
 - b) Vehicles used for commercial purposes in the judgment of the gasoline retailer. (See additional guidance, Attachment A)
 - c) U.S. Postal Service Vehicles.

Executive Department

State of California

- d) Vehicles operated by handicapped persons, who have no practical alternative to auto transportation, as designated by the following license plate letters:

DPW000 through DPZ999
000DPW through 000DPZ
000RDP through 999ZDP
1DPA000 through 1DPZ999
VET000 through VET999
VTN000 through VTN999
VTR000 through VTR999
000VET through 999VET
000VTN through 999VTN
000VTR through 999VTR

Any vehicle displaying a disabled person placard issued by the California Department of Motor Vehicles.

- f) Vehicles transporting patients who present to the gasoline retailer an exemption statement from the California Energy Commission.

Operators of the above exempt vehicles are urged to purchase gasoline only on appropriate alternate days whenever possible.

12. The following vehicles are exempt from the provisions of these orders:

- a) Emergency vehicles as defined in Section 165 of the California Vehicle Code (See attachment B).
- b) Other emergency repair and service vehicles, whether public or private, used for functions directly related to the protection of life, property or public health.
- c. Vehicles operated in an unusual emergency situation in the judgment of the gasoline retailer.
- d. Motorcycles, mopeds, and similar two-wheel vehicles.

13. At the retail level, no more than two gallons of gasoline may be dispensed into a separate container, and no more than one separate container may be used in a single transaction.

This rule shall not apply to containers used for a commercial purpose such as containers used to fuel commercial landscaping and gardening equipment, construction equipment, or electrical generators.

Executive Department

State of California

COMMENT:

Storage of gasoline in separate containers in the trunk of automobiles is an extremely dangerous practice.

14. Unless otherwise specified, the provisions of these regulations, including, but not limited to, Rules (1), (2), (4), (5), and (6), apply to a vehicle operator, an employee of a gasoline retailer, and a gasoline retailer. A violation of these regulations may result in a criminal charge against each of these persons. The term "gasoline retailer" as used in these regulations includes every person, firm, partnership, association, trustee or corporation, owning, leasing, renting, managing or operating a gasoline service station or other facility offering for sale, selling or otherwise dispensing gasoline to the general public.
15. Pursuant to the authority of Section 8665 of the Government Code, any willful violation of these orders or regulations is a misdemeanor and upon conviction, shall be punishable by a fine of not to exceed five hundred dollars (\$500) or by imprisonment not to exceed six months or by both such fine and imprisonment.
16. Local authorities shall have the responsibility for monitoring and enforcing these regulations. Any violation should be reported to local law enforcement officials.
17. Any County Board of Supervisors may submit proposed clarifications of these rules to the Chairperson of the California Energy Commission. Such clarifications shall take effect upon the concurrence of the Energy Commission Chairperson. No changes to these rules shall occur unless submitted to the Energy Commission Chairperson and adopted by a written order of the Governor.
18. Rule #10 shall not take effect until seven (7) days after the date of proclamation of emergency for that county. Rule #8 shall not take effect until May 30, 1979.
19. Notwithstanding any of the provisions of these regulations or other state or local law, Rules (1), (2), and (5) shall not apply to any person dispensing gasoline into a vehicle that receives a carwash as part of the transaction from a business whose primary purpose as of May 1, 1979, is offering that

Executive Department

State of California

service. This rule shall apply only to these businesses which file with the Energy Commission a statement under penalty of perjury that their primary purpose as of May 1, 1979, was providing carwashes and not the sale of gasoline.

20. If a retailer orders gasoline in accordance with his monthly allocation and his supplier cannot deliver that gasoline within forty-eight hours of the time the order is placed, the supplier shall immediately notify the retailer. The notification shall include a firm delivery time for the gasoline and shall set forth the reasons for the delay.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Great Seal of the State of California to be affixed this 14th day of November, 1979.

PROCLAMATION
OF
STATE OF EMERGENCY

WHEREAS, on November 12, 1979, the President of the United States declared that the United States would immediately cease importing crude oil and petroleum products from Iran; and

WHEREAS, the United States imported approximately 750,000 barrels of oil per day from Iran prior to the President's order; and

WHEREAS, at the time of the President's order the nation's stock of gasoline was approximately 220 million barrels, a level the United States Department of Energy already considered only slightly above minimum acceptable levels; and

WHEREAS, the temporary suspension in production and reduced exportation of crude oil and petroleum products by Iran beginning in December, 1978, and continuing into the spring of 1979, precipitated a crisis in allocation of California's gasoline supplies which resulted in a severe shortage of supplies at retail outlets; and

WHEREAS, the shortage of gasoline last spring resulted in instances of extensive traffic congestion, acts of violence and general conditions of extreme peril to the safety of persons and property necessitating a declaration of a state of emergency and the promulgation of regulations restricting the purchase of gasoline in 15 counties; and

WHEREAS, the general conditions of extreme peril to the safety of persons and property which arose during the spring of 1979 were not immediately relieved by the declaration of a state of emergency and the promulgation of regulations issued in response to the existence of those conditions; and

WHEREAS, the present energy situation with regard to crude oil imports and gasoline supplies is similar to that which existed prior to the sudden and severe gasoline shortage in the spring of 1979; and

WHEREAS, this State's experience with the gasoline shortage in spring, 1979, indicates the necessity for taking action immediately prior to the existence of actual gasoline shortages in order to avoid the severe impact caused by such shortages; and

Executive Department
State of California

PAGE TWO

WHEREAS, on November 16, 1979, the President of the United States urged governors of all states to consider strict conservation measures to preserve fuel supplies, and the Secretary of the United States Department of Energy specifically recommended consideration of odd - even and minimum purchase programs to reduce the consumption of gasoline;

NOW, THEREFORE, I, Edmund G. Brown, Jr., Governor of the State of California, find and proclaim the existence of conditions of extreme peril to the safety of persons and property within the State of California caused by the embargo on importation of crude oil and petroleum from Iran and the impending severe shortage of gasoline within the state.

I DO HEREBY proclaim a State of Emergency, effective at 0001 hours, December 3, 1979, in all counties of the State and incorporate by reference, as though fully set forth herein, the regulations pertaining to the California gasoline emergency previously filed by the California Energy Commission with the Secretary of State on November 14, 1979.

I further declare and find that local authority is inadequate to cope with this emergency because of the state-wide nature of the impact of gasoline shortages in the state.

This proclamation and order shall supersede the proclamations and orders issued on November 13, 1979, effective at 0001 hours, December 3, 1979.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Great Seal of the State of California to be affixed this 3rd day of November, 1979.

PROCLAMATION

In a sermon given on his last Christmas, Martin Luther King, Jr. spoke of the opposition to the civil rights movement: "Do to us what you will and we will still love you. We cannot in all good conscience obey your unjust laws and abide by the unjust system, because noncooperation with evil is as much a moral obligation as is cooperation with good, and so throw us in jail and we will still love you."

In these remarkable words we see a tremendous will--rooted in religious faith and commitment to nonviolence--to oppose injustice. The message is all the more forceful because of Dr. King's steadfast unwillingness to seek vengeance against those who had wronged his people, his refusal to hate those who had shown hatred toward him. Dr. King's words and actions speak with a moral imperative not only to the black or to the white, or to past events; rather, his thoughts and deeds put forth a timeless challenge to the human family.

In recognition of his contributions to America and to all peoples, I therefore proclaim in the State of California January 15, 1980, the anniversary of his birth, Martin Luther King, Jr. Day.

IN WITNESS WHEREOF I have hereunto set my hand and caused the Great Seal of the State of California to be affixed this 11th day of January 1980.

NOW, THEREFORE, I, Edmund G. Brown Jr., Governor of the State of California, by virtue of the power and authority vested in me by the Constitution and statutes of the State of California, do hereby issue this order to become effective immediately:

THERE IS HEREBY CREATED the Governor's Task Force on Housing Affordability comprised of no more than twenty (20) members, appointed by the Governor, who shall to the maximum extent feasible include representatives from the residential construction and manufactured housing industries, consumer and minority advocates, government, major employers, and labor. The Task Force shall meet at least once each month during calendar year 1980 and advise the Department of Housing and Community Development on means by which the cost of housing can be reduced, particularly for low and moderate-income households. The Task Force shall make specific recommendations for legislation and programs to reduce the cost of all types of housing, including but not limited to the following areas:

1. Reduce land costs

Recommend methods to make more efficient use of developable land, including higher density uses, "density bonuses," in-filling, "inclusive" zoning, conversion of surplus lands, and infrastructure development.

2. Reduce construction costs

Recommend ways to produce lower cost housing such as "no frills" starter homes, greater use of manufactured, mobile, and modular homes, new materials and techniques, and owner -built housing.

3. Reduce financing costs

Recommend innovative ways to develop and utilize below market interest rate financing and bonding techniques for both rental and owned housing, and to explore equity-sharing, public co-investment, and deferred payment mortgage instruments.

4. Reduce development costs

Recommend ways to shorten the time required to bring a project to fruition, including fast permit process, use of development rights, and coordinated state and local approvals.

5. Reduce energy and operating costs

Recommend means of reducing the operating costs of housing, including the promotion of solar energy and energy conserving design and construction, encourage the development of housing near employment centers, providing other opportunities for training in anticipation of home-ownership, and promoting innovative and cost effective rental housing management.

6. Reduce costs due to overhead and profit

Encourage and assist the formation and activities of non-profit and limited-profit housing sponsors, and the utilization of limited equity co-operatives.

In its deliberations on each of these components of housing cost, the Task Force should also consider how the state can promote market and community acceptance of affordable housing, how currently available public subsidies can more effectively be employed, how other public policies such as

PUBLIC INVESTMENT TASK FORCE

WHEREAS, the people and state of California have a need for new capital in certain geographic areas, portions of the population, and sectors of the economy ---- especially affordable housing, alternative energy, small business, and job-generating economic development;

WHEREAS, the \$40 billion of state and local retirement funds, and temporarily idle public funds represent a vast underused resource that can be focused on California's needs while ensuring profitability and security for the pension system members;

WHEREAS, the California tax base is the major contributor and ultimate guarantor of public employee retirement funds and depends upon an improving economic climate through increased in-state investments which will generate greater tax revenues;

WHEREAS, under current investment policies, not only are jobs exported from the state, but the indirect multiplier effects of out-of-state investments are lost to the California taxpayers and public employees;

WHEREAS, the state revenues continue to shrink as a result of recent changes in the tax laws, while inflation erodes retirement savings derived from the same tax revenues;

WHEREAS, pension funds are invested in companies which may violate state and federal non-discrimination laws, causing a loss of potential shareholder dividends for legal costs and settlements;

WHEREAS, matching these funds with public need requires the creation of new investment vehicles;

NOW, THEREFORE, I, EDMUND G. BROWN JR., Governor of the State of California, by virtue of the power and authority invested in me by the Constitution and Statutes of the State of California do hereby issue this order, to become effective immediately;

1. There is established an advisory PUBLIC INVESTMENTS TASK FORCE, to investigate and propose new ways in which the massive resources of state and local pension funds and temporarily idle funds can meet public need in a manner which is prudent.

2. The Chairman will be a public member with the staff resource support from the Office of Planning and Research and the State and Consumer Services Agency, Dept. of Housing and Community Development, and the SolarCal Office. All members shall serve voluntarily and without compensation.

3. The PUBLIC INVESTMENTS TASK FORCE shall have the following responsibilities:

-- Develop specific proposals for new investment alternatives that are both prudent and responsive to the needs which California faces in the areas of affordable housing, small business development, alternative energy resource development, and job creation.

-- Develop general guidelines to assure that public investment practices meet socially responsible criteria and public interest goals.

-- Recommend any necessary changes in California tax and pension laws and regulations that will facilitate new investment alternatives.

-- Focus on the investment of state, local, and county temporarily idle funds and retirement funds, including the Public Employees Retirement System, the State Teachers Retirement System, and the University of California Retirement and Endowment Funds.

-- Meet regularly for a period of no longer than one year and conduct public hearings as appropriate to obtain broad public input.

-- Issue a final report to the Governor and Legislature no later than one year after the Task Force establishment and such interim reports as are appropriate.

PROCLAMATION

It is most appropriate that we set aside a time to reflect on the genocide of Armenians in Turkey during the early part of this century. The tragic cruelty inflicted upon more than one and one half million Armenians between 1915 and 1918 marks one of the darkest periods in the history of the world. In calling attention to the events of that time, we can learn much about the dangers of tyranny, bigotry and ignorance. Hopefully, we can come to understand the factors that could bring about such human suffering, and we can reaffirm our commitment to guarding against them.

I, therefore, proclaim in the State of California, April 24, 1980 as State Day of Remembrance and encourage citizens to pay tribute to those who perished in this period of oppression and reaffirm our commitment to the principles of human equality and justice.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Great Seal of the State of California to be affixed this 24th day of April, 1980.

EXECUTIVE ORDER B-69-80

WHEREAS, the people and State of California have a need for new capital in certain geographic areas, portions of the population, and sectors of the economy -- especially affordable housing, alternative energy, small business, and job-generating economic development;

WHEREAS, state and local retirement funds, temporarily idle public funds, and other pension funds represent a vast underused resource that can be focused on California's needs while ensuring profitability and security for the pension system members;

WHEREAS, the California tax base is the major contributor and ultimate guarantor of public employee retirement funds and depends upon an improving economic climate through increased instate investments which will generate greater tax revenues;

WHEREAS, under current investment policies, not only are jobs exported from the state, but the indirect multiplier effects of out-of-state investments are lost to the California taxpayers and public employees;

WHEREAS, the state revenues continue to shrink as a result of recent changes in the tax laws, while inflation erodes retirement savings derived from the same tax revenues;

WHEREAS, pension funds are invested in companies which may violate state and federal non-discrimination laws, causing a loss of potential shareholder dividends for legal costs and settlements;

WHEREAS, matching these funds with public need requires the creation of new investment vehicles;

NOW, THEREFORE, I, Edmund G. Brown Jr., Governor of the State of California, by virtue of the power and authority vested in me by the Constitution and statutes of the State of California, do hereby issue this order to become effective immediately:

1. There is established an advisory Public Investments Task Force, to investigate and propose new ways in which public policy can assist state and local pension funds, temporarily idle funds, and other pension funds to meet public need in a manner which is prudent.

Executive Department

State of California

PAGE TWO

2. The Task Force will be chaired by a public member, and provided staff and resource support by the Office of Planning and Research, State and Consumer Services Agency, Business and Transportation Agency and Department of Industrial Relations from existing funds appropriated for programs relevant to the goals and responsibilities of the Task Force. Members of the Task Force shall serve voluntarily and without compensation, but are entitled to reimbursement for their reasonable and necessary expenditures.

3. The Public Investments Task Force shall have the following responsibilities:

- Develop specific proposals for new investment alternatives that are both prudent and responsive to the needs which California faces in the areas of affordable housing, small business development, alternative energy resource development, and job creation.
- Develop general guidelines to assure that public investment practices meet socially responsible criteria and public interest goals.
- Recommend any necessary changes in California tax and pension laws and regulations that will facilitate new investment alternatives.
- Focus on the investment of state, local, and county temporarily idle funds and retirement funds, including the Public Employees Retirement System, the State Teachers' Retirement System, and the University of California Retirement and Endowment Funds.
- Meet regularly for a period of no longer than one year and conduct public hearings as appropriate to obtain broad public input.
- Issue a final report to the Governor and Legislature no later than one year after the Task Force establishment and such interim reports as are appropriate.

Executive Department
State of California

4. The Task Force is authorized to receive and disburse, on behalf of the Governor, federal and other funds made available to promote public investment policies.

5. All state agencies, departments, and commissions are hereby directed to assist and cooperate with the Public Investments Task Force in carrying out their responsibilities.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Great Seal of the State of California to be affixed this 29th day of July, nineteen hundred and eighty.

WHEREAS, stereotypes result in an individual being judged without regard for that individual's own qualities and merits; and

WHEREAS, a study of the problems of sexual minorities and of the adequacy of existing law to protect the personal privacy of all individuals is necessary so that legislative and administrative action and public attitudes may be based upon accurate information, thus encouraging protection of the civil rights of all Californians against arbitrary and unjust discrimination;

NOW, THEREFORE, I, Edmund G. Brown Jr., Governor of the State of California, by virtue of the power and authority vested in me by the Constitution and statutes of the State of California, do hereby issue this Order to become effective immediately;

WHEREAS, burdensome, unclear and unnecessary state government regulations increase the business and consumer costs of services and commodities and stifle private initiative and individual responsibility; and

WHEREAS, this Administration is alarmed about the effects of such regulations and is committed to reducing and minimizing the intrusion of government into the affairs of California businesses and residents; and

WHEREAS, it is the constant obligation of government to reassess its proper role and to seek ways to be more effective and efficient, and particularly so during times of diminishing resources; and

WHEREAS, my signing of AB 1111 makes California the first state to require every state agency to review all regulations with the purpose of reducing their number and improving their quality, and establishes the Office of Administrative Law to direct the completion of the regulation review by 1986.

NOW, THEREFORE, I, Edmund G. Brown, Jr., Governor of the State of California, by virtue of the power and authority vested in me by the Constitution and statutes of the State of California, do hereby issue this order to become effective immediately:

1. Agencies reviewing proposed and existing regulations shall eliminate all regulations that do not serve an essential governmental purpose.
2. The review of all existing regulations shall be accelerated and completed by December 31, 1982 provided, however, that an agency may seek from the Office of Administrative Law a later completion date if extraordinary circumstances would render completion by December 31, 1982 impossible.
3. State agencies shall insure that representatives of persons who are affected by their regulations are effectively involved in the review of all existing regulations. The Office of Administrative Law shall monitor agencies to ensure public participation in the review of existing regulations.

FROM: EDMUND G. BROWN JR., Governor

Pursuant to Chapter 1 of Part 6 of Division 9 of the Welfare and Institutions Code, and in order to provide for the continued operation of the state plans for Families with Dependent Children under the provisions of the Welfare and Institutions Code, I do hereby find as facts:

That assistance to this State for the above-mentioned Public Assistance Program is provided for by the Federal Social Security Act; and

That this State has qualified to receive Federal assistance for the above-mentioned Public Assistance Program and has not been notified that further payment of such Federal assistance will not be made because of failure of this State to comply with the requirement of the Federal legislation; and

That Federal assistance to this State for the above-mentioned Public Assistance Program has not been received, and it is improbable that such Federal assistance will be received by this State prior to the usual time for transmitting such Federal assistance to the counties of this State.

In consideration of the above findings, I do hereby proclaim the existence of a period of welfare emergency for the months of September and December, 1980, for Families with Dependent Children, and declare that the sums estimated by the State Department of Social Services in the amount of Federal assistance payable to this State under Federal law and appropriated by Section 18003 of the Welfare and Institutions Code are available for expenditure.

You are, therefore, authorized and directed to do all the things necessary to accomplish the intent and purpose of said Chapter 1 of Part 6 of Division 9 of the Welfare and Institutions Code.

EXECUTIVE ORDER B-77-81

WHEREAS, an economically sound and sustainable agriculture is vital to California; and

WHEREAS, California's agricultural future depends upon finding innovative and cost-effective solutions to problems of energy and water availability and cost, air, soil, and water quality, and pest prevention and control; and

WHEREAS, investment of State resources is proper where significant public benefit can be realized; and

WHEREAS, the Governor's budget for fiscal year 1981-82 will propose that funds from the Energy and Resources Fund be available to the Department of Food and Agriculture for the Agriculture Investment Program to invest in the state's agricultural resources and specifically into the problems affecting the protection of renewable resources in agriculture as well as in resource related problems and projects to assure the future existence of a viable agriculture in the State; and

WHEREAS, consultation and advice from farmers, scientists, educators, the financial community, and the public is needed to fully evaluate problems affecting our agricultural resources;

NOW, THEREFORE, I, Edmund G. Brown Jr., Governor of the State of California, by virtue of the power and authority vested in me by the Constitution and statutes of the State of California, do hereby issue this order to become effective immediately:

The Director shall appoint eight additional persons as follows:

- (a) a representative of the University of California;
- (b) the Director of the State Department of Conservation, or a designee;
- (c) the President of the Resource Conservation Districts Association, or a designee;

- (e) a member of the State Water Resources Control Board;
- (f) the State Chair of the California Agricultural Stabilization and Conservation Committee, or a designee;
- (g) a representative of the financial community;
- (h) one public member.

The Director shall yearly designate one member to act as Chair.

2. The Advisory Committee shall make recommendations to the Director of the Department of Food and Agriculture with respect to the implementation of this Executive Order, and shall determine that the use of funds allocated to the Department under this Executive Order is appropriate, effective, and compatible with the objective of finding innovative and cost effective solutions to the challenge of maintaining and enhancing California's agricultural energy, water, air, soil, and genetic resources, and in accordance with the following purposes:

Increasing agriculture's independence from nonrenewable resources of agricultural energy;

Maintaining the productive capacity of California soils by addressing the problems of soil erosion, salt accumulation, inadequate drainage, soil movement, compaction, decline in fertility; and urban encroachment;

Increasing the availability and efficiency of water use in agriculture;

Encouraging a broad spectrum of agricultural strategies and techniques aimed at preventing the spread of and ensuring the control of plant and animal pests;

Identifying strategies, programs, and incentives that increase the compatibility of agricultural activities with long-term maintenance of wildlife habitat and air and water quality.

3. The Director shall not undertake the disbursement of funds available under this Executive Order except for the purposes and proposals adopted and recommended by the Advisory Committee; however, the Director shall not be required to adopt all proposals or programs recommended. All appropriations for the Agriculture Investment Program shall be made through the Governor's annual budget.

4. The Advisory Committee shall additionally:

Identify renewable resource investment needs in agriculture and develop criteria for evaluating problems affecting the preservation, conservation, or enhancement or renewable agricultural resources in the State.

Publicly request proposals from the research community, and other agencies, organizations, and investigators for the investigation and solution of specific problems and recommend to the Director the funding of those proposals which, in the estimation of the Advisory Committee, may reasonably be expected to be successful and usable.

Provide liaison with other groups, agencies, institutions, and individuals with similar interests and responsibilities for maintaining, improving, and enhancing renewable agricultural resources and act cooperatively with them in attaining such goals. Such cooperation may include, but not be limited to, funding, in part or in whole, by grant or by loan, projects or programs recommended by other groups, agencies, institutions, and individuals.

Review all applications for funding and make recommendations to the Director based upon the purposes established in this Executive Order and the criteria established by the Advisory Committee. The Committee's recommendations should emphasize innovative approaches that are unlikely to find support through other state or federal funding channels, and the Committee shall ensure that its recommendations do not duplicate ongoing programs within the Department of Food and Agriculture or other state agencies or commissions. The Advisory Committee shall seek to maximize the potential public benefit that might result from the allocation of state funds under this program, and shall encourage cost-sharing efforts to provide the most effective use of state funds.

Annually describe and report progress on projects funded to the Governor and the public.

Make recommendations to the Director of the Department of Food and Agriculture with respect to the implementation of this program.

5. Members shall be appointed to the Advisory Committee for a term of four years, but may not serve more than two consecutive terms.

EXECUTIVE ORDER # B84-81

WHEREAS, if the State of California is to meet the competitive challenges of the 1980s and provide sufficient employment opportunities for its population, the mature sectors of the State's industrial base must be revitalized; and

WHEREAS, in some instances the revitalization process has and will continue to entail the closure of some plants and the attendant severe economic dislocations for displaced workers, their families, and their communities; and

WHEREAS, the State has an obligation to its citizens to adopt policies which not only help alleviate the unemployment and economic distress of major plant closings but which also promote a healthy business climate in order to facilitate the creation of new jobs to replace those lost to plant closings in the mature sectors of the economy; and

WHEREAS, the State has attempted to alleviate adverse conditions that might cause plant closures and, where such closures have been unavoidable, has effectively assisted local efforts to secure alternative employment and retraining opportunities for displaced workers; and

WHEREAS, there is a need to assure that such assistance from the State is available on a more systematic and coordinated basis and that workers, firms, and communities know of its availability; and

WHEREAS, the availability of such assistance from the State can serve as an incentive for early notification to workers, local governments and the State regarding anticipated plant closures or mass layoffs well in advance of their occurrence in order that special assistance may be offered to avert unnecessary closings or to prevent severe economic dislocation;

NOW, THEREFORE, I, Edmund G. Brown Jr., Governor of the State of California by virtue of the power and authority vested in me by the Constitution and Statutes of the State of California, do hereby issue this Order, to become effective immediately:

There is hereby created a California Economic Adjustment Team, which shall consist of the Director of the Department of Economic and Business Development, who shall serve as chairperson, the Director of the Employment Development Department, the Director of the Department of Industrial Relations, and the Director of the Office of Planning and Research.

The advice of such knowledgeable community leaders shall be drawn upon to assure effective assistance by the State responsive to particular community needs and circumstances.

The hereby appointed Economic Adjustment Team shall become effective immediately and shall:

PROCLAMATION

By virtue of the authority vested in the office of the Governor of any state by the federal Mortgage Subsidy Bond Tax Act of 1980, 1, Edmund G. Brown Jr., as Governor of the State of California, hereby proclaim as follows:

1. Pursuant to 26 USC Section 103A (g) (6) (B), this proclamation shall govern the allocation for the calendar year 1981 of the state ceiling among the governmental units in this state having authority to issue qualified mortgage bonds. Any allocation granted by this proclamation shall become the applicable limit, as that term is used in Section 103A (g) (1) of the code, for the issuer to which such allocation is granted for any qualified mortgage bonds issued by such issuer in calendar year 1981 after the date of this proclamation.
2. Unless the context otherwise requires, the terms defined in this section shall for all purposes of this proclamation have the meanings herein specified.
 - (a) "Allocation" means that principal amount of qualified mortgage bonds which a local agency is allocated pursuant to this proclamation for the calendar year 1981.
 - (b) "Committee" means the Housing Bond Credit Committee established pursuant to Section 51360 of the California Health and Safety Code.
 - (c) "Code" means the federal Internal Revenue Code of 1954, as amended.
 - (d) "Formula allocation" means that principal amount of qualified mortgage bonds which a local agency is allocated pursuant to Section 4 hereof for the calendar year 1981.
 - (e) "Issuer" means a local agency or a redevelopment agency, housing authority or other local entity authorized by the laws of this state to issue qualified mortgage bonds to which a local agency has assigned all or part of its allocation pursuant to this proclamation.
 - (f) "Local agency" means any city, county, or city and county, in this state.
 - (g) "Local bond limit" means, for the calendar year 1981, 66-2/3 percent of the state ceiling for such calendar year, less the amount of all qualified mortgage bonds, if any, issued by local public entities of this state in 1981 prior to the date of this proclamation.
 - (h) "Median household income" means "median household income" as defined by Section 52020 (f) of the California Health and Safety Code.
 - (i) "Qualified mortgage bonds" has the same meaning as that specified in Section 103A of the code, taking into account Section 1 hereof.

(j) "State bond limit" means, for the calendar year 1981, 33-1/3 percent of the state ceiling for such calendar year, less the amount of all qualified mortgage bonds, if any, issued by the state entities referred to in Section 6 in 1981 prior to the date of this proclamation.

(k) "State ceiling" shall be the amount specified by the Committee pursuant to Section 8 of this proclamation.

(l) "Territory" means for any city or city and county, the area within the boundaries of such city or city and county, and for any county, the area within the boundaries of such county not within the boundaries of any city.

3. (a) Any local agency or other local public entity that has issued qualified mortgage bonds during 1981, prior to the date of this proclamation, is required to file with the Committee within 30 days after the date of this proclamation a statement of the amount and date of such issue. Any local agency desiring an allocation for the issuance of qualified mortgage bonds in the calendar year 1981 after the date of this proclamation shall, not more than 30 days prior to the date of issuance of such bonds, file with the Committee a statement of the amount of such bonds to be issued, the amount of such local agency's formula allocation (specifying the respective amounts determined pursuant to subsections (a) and (b) of Section 4 of this proclamation), the amounts of any formula allocations assigned to such local agency pursuant to Section 5 hereof, and that the first condition specified in the next paragraph is satisfied for the granting of an allocation. The Committee is thereupon to advise such local agency of the aggregate amount of allocations previously granted pursuant to this section for the calendar year 1981 and which have not expired and, during the first 60 days after the date of this proclamation, the aggregate amounts of such allocations determined pursuant to subsections (a) and (b), respectively, of Section 4 of this proclamation.

(b) The filing local agency shall be deemed to be granted an allocation in an amount equal to the amount of bonds to be issued as stated by the local agency in its filing if both of the following conditions are met:

(1) The amount of bonds to be issued as stated by the filing local agency, together with the aggregate amount of any allocations previously granted to (even if assigned away by) such local agency for calendar year 1981, does not exceed an amount equal to the sum of the local agency's formula allocation and the formula allocations assigned to such local agency pursuant to Section 5 hereof.

(2) The amount of such bonds to be issued, together with the aggregate amount of allocations previously granted pursuant to this section for the calendar year 1981 and which have not expired as of the date of the local agency's filing with the Committee pursuant to subsection (a) of this section, does not exceed the local bond limit.

(c) Any allocation granted pursuant to subsection (b) of this section shall expire on the earlier of December 31, 1981 or the date 31 days after the date of the local agency's filing with the Committee pursuant to subsection (a) of this section, unless the local agency or the issuer to which the local agency has assigned the allocation files prior to such date of expiration with the Committee a statement that qualified mortgage bonds have been issued in reliance upon such allocation and the amount of such qualified mortgage bond issue. Any amount of such allocation in excess of the amount of such issue shall expire on such date of expiration.

(d) The Committee shall not be responsible for determining whether in fact conditions (1) and (2) of subsection (b) of this section have been met. Such determinations shall be the responsibility of the filing local agency.

4. The formula allocation for any local agency for the calendar year 1981 shall be the sum of the amounts determined pursuant to subsections (a) and (b) of this section, but not in excess of \$250,000,000 and provided that for the first 60 days after the date of this proclamation one-half of the local bond limit shall be reserved exclusively for allocation of the amounts determined pursuant to subsection (b) of this section:

(a) The greatest of the following amounts, less in each case the amount of qualified mortgage bonds issued in 1981 prior to the date of this proclamation for use to provide financing for properties located within the territory of such local agency:

(1) The local bond limit times the ratio of the population of the territory of such local agency for the calendar year 1980 to the population of the State for the calendar year 1980, but not in excess of \$60,000,000,

(2) The local bond limit times the ratio of the amount of growth in population of the territory of such local agency from the calendar year 1975 to the calendar year 1980 to the amount of growth in population of the state over the same period, but not in excess of \$60,000,000.

(3) Twenty million dollars (\$20,000,000).

For purposes of this subsection only, the population of the territory of a local agency for any given calendar year shall be deemed to be the Department of Finance's population estimate for that territory and year as of the effective date of this proclamation.

(b) In the case of qualified mortgage bonds issued pursuant to Part 5 of Division 31 of the California Health and Safety Code, the amount approved by the Committee pursuant to said act or, in the case of any other qualified mortgage bonds, the amount of the portion of the proceeds of such bonds, which by reason of provisions in the resolution or indenture authorizing the issuance of such bonds or by reason of the statute under which such bonds are issued, is limited to being used to provide financing for persons and families whose incomes do not exceed:

(1) 120 percent of the median household income in the case of financing for improving a residence or for residences where the purchaser will be the first occupant.

(2) The median household income where the purchaser will not be the first occupant. However, the issuer shall assure that no less than half the funds allocated for financing where the purchaser will not be the first occupant shall be for households whose income does not exceed 80 percent of such median household income; provided, that the legislative body of the issuer may, by resolution, increase this income limitation to 90 percent of median household income if the legislative body finds that there are insufficient numbers of credit-worthy persons whose income does not exceed 80 percent of median household income. Such a resolution shall be final and conclusive as to the findings required by this subparagraph.

5. Any local agency may by written agreement assign to any other issuer having the authority to issue qualified mortgage bonds under the laws of this state all or any part of said local agency's formula allocation for the calendar year 1981, but only if the assignment is solely for use by the issuer to provide financing for properties located within the territory of the assigning local agency (including a proportionate share of costs of issuance, underwriters discount, capitalized interest, reserve funds and similar expenses associated with the financing), provided that such assignment shall not be deemed ineffective if, after issuance of the bonds and for reasons beyond the control of the issuer, the issuer is unable to use any portion of the proceeds of such bonds to provide financing for properties located within the territory of the assigning local agency, as required by such assigned allocation, and such proceeds are instead used to redeem bonds or to provide financing for properties located within the county within which the assigning local agency is located.
6. There are hereby granted for the calendar year 1981 the following allocations:
 - (a) To the Department of Veterans Affairs, an allocation in the amount of 26 percent of the state bond limit.
 - (b) To the California Housing Finance Agency, an allocation in the amount of 63 percent of the state bond limit.
 - (c) To the Military Department, an allocation in the amount of 3 percent of the state bond limit.
 - (d) To the Regents of the University of California, an allocation in the amount of 8 percent of the state bond limit.
7. The Committee is hereby requested to confirm allocations and maintain appropriate records with respect thereto in the manner and to the extent contemplated by this proclamation and permitted by law.
8. The Committee, pursuant to Section 103A(g)(4) of the code, shall determine the state ceiling for calendar year 1981 as soon as practicable following the date of this proclamation.

9. This proclamation shall remain in effect only until the earlier of January 1, 1982 or the date upon which any legislation which would under the code supersede this proclamation becomes effective.

IN WITNESS WHEREOF I have hereunto set my hand and caused the Great Seal of the State of California to be affixed this 6th day of August, 1981.

EXECUTIVE ORDER B-87-81

WHEREAS, the State General Fund is experiencing a significant decline in revenue principally due to a recessionary economy; and

WHEREAS, the State General Fund expenditures for the year are running substantially higher than anticipated; and

WHEREAS, the State General Fund is experiencing major borrowing to meet cash obligations for the first time in nearly a decade; and

WHEREAS, deficit spending is prohibited in the State Constitution;

NOW, THEREFORE, I, Edmund G. Brown Jr., Governor of the State of California, by virtue of the power and authority vested in me by the Constitution and statutes of the State of California, including Government Code §13322, do hereby issue this order to become effective immediately:

1. The Department of Finance will unallot 1981-82 General Fund departmental budgets which are included in State Operations by two (2) percent. Exceptions to this reduction will be debt service, Emergency Fund, Workers' Compensation Benefits, Health Benefits for Annuitants, and the institutions of each of the following: the Department of Corrections, the California Youth Authority, the State hospitals, Veterans Home, and State Special Schools for Individuals with Exceptional Needs.
2. The Public Works Board is directed to defer processing requests for capital outlay projects. Exceptions to this mandate are:
 - a. Projects necessary to increase the capacity of correctional institutions.
 - b. Projects necessary to meet licensing requirements for federal funding.
 - c. Projects to replace electrical equipment which contains polychlorinated biphenyls.

- d. Projects for which the State is legally obligated to proceed.
3. The Department of Finance will review the unencumbered balances of continuing appropriations, and unallot those funds where, in the determination of the Director, may be reverted to the General Fund.
4. The Department of Finance will unallot, on an interim basis, \$200 million of the funds appropriated for school construction to be apportioned by the State Allocation Board.
5. The Department of Finance in conjunction with State agencies and departments will review 1981-82 Local Assistance budgets to find lower priority programs which may be reduced or eliminated.
6. Higher education must participate in achieving the desired savings. Therefore, I direct the Department of Finance to unallot two (2) percent of the 1981-82 budgets for the University of California and the California State University and Colleges.
7. The constitutional separation of powers precludes an extension or application of the provisions of this Executive Order to the legislative and judicial branches of government. I invite these branches of government to participate in the endeavor to reduce the costs of State Government.
8. The Department of Finance is hereby directed to coordinate the administrative actions necessary to implement this Executive Order. Reassessment of the fiscal status of the State will be continued for the next several months.

EXECUTIVE ORDER #B-91-81

The continued prosperity of California depends upon our fundamental reordering of priorities. The challenge of foreign competition and domestic industrial obsolescence requires that our genius for technological innovation become the guiding concept of the next decade.

California is strategically positioned to take advantage of technological advances in electronics, communications, aerospace, agriculture, and genetic sciences. Such technological advances will be a major benefit to all California industries. These benefits can best be realized through the creation of a new partnership between business, labor, academia, and government. This partnership can both advance and serve basic human values and enhance economic productivity.

NOW, THEREFORE, I Edmund G. Brown Jr., Governor of the State of California, by virtue of the power and authority vested in me by the Constitution and statutes of the State of California, do hereby issue this order to become effective immediately.

1. A California Commission on Industrial Innovation is hereby established in the Governor's Office, and will terminate in December of 1982.
2. The Commission shall be composed of the Governor, the Secretary of the Business, Transportation, and Housing Agency, the Director of the Department of Industrial Relations and fifteen other persons who are experienced and interested in technological innovation from the business, labor, academic, and governmental communities. The Governor shall appoint eleven members of the Commission, while the President Pro Tempore of the California Senate and the Speaker of the California Assembly shall appoint two members, respectively, with the Governor serving as chair of the Commission. The Governor may designate a co-chair as necessary.
3. The Commission shall provide a forum for discussion, debate, and policy guidance for the Governor and the Legislature on the role of technological innovation in maintaining California's leadership in the national economy and in retaining its international competitive position. The Commission shall identify priorities for research, grants, and other state government-supported economic initiatives designed to spur industrial innovation. The Commission shall pursue these goals by:
 - Bringing together representatives of the business, labor, academic, and governmental communities;
 - Assisting in public and private financing of industrial innovation;
 - Arranging for management and technical assistance from state, national, and international sources.
 - Arranging for better management of human resources.

4. The Commission shall prepare a report to serve as a blueprint for industrial innovation policy in California, in order to assure our continued leadership in the emerging technologies for old and new industries in the 1980's.
5. The Commission shall convene in 1982 one or more conferences to discuss industrial innovation policy and related economic initiatives in the public and private sectors to encourage the broadest possible public discussion and involvement in planning California's economic future.
6. The Chair or Co-chair may appoint an Executive Advisory Council to the Commission, with designees of each Commissioner serving on the Council with such others as the Chair or Co-chair may deem necessary. The Council shall examine specific topics at the Commission's direction, including the promotion of technological innovation through enhanced capital formation, education and training and human productivity.
7. Members of the Commission and Executive Advisory Council shall serve without compensation, but shall be reimbursed for their actual expenses. The Governor will appoint an Executive Director and staff for the Commission as needed.
8. The Commission shall report to and advise the Governor and Legislature on policy and issues of economic strength through industrial innovation.
9. In addition to the fund authorized in Item 220-001-001, the Commission is authorized to receive and disburse, on behalf of the Governor, federal and other funds made available to promote industrial innovation.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Great Seal of the State of California to be affixed this 17th day of November 1981.

PROCLAMATION

I refuse to accept the idea that man is mere flotsam and jetsam in the river of life which surrounds him. I refuse to accept the view that mankind is so tragically bound to the starless midnight of racism and war that the bright daybreak of peace and brotherhood can never become a reality.

I refuse to accept the cynical notion that nation after nation must spiral down a militaristic stairway into the hell of a thermo-nuclear destruction. I believe that unarmed truth and unconditional love will have the final word in reality. This is why right temporarily defeated is stronger than evil triumphant.

WHEREAS, Dr. Martin Luther King Jr., led the Civil Rights movement in this country with a deep and abiding faith in the ultimate triumph of freedom for all men and women; and

WHEREAS, Dr. King spoke with such passion and acted with such determination that all America and much of the world saw in him the embodiment of the American dream of freedom, equality, and justice for all; and

WHEREAS, the dream of Dr. King lives on today in the minds and hearts of those who struggle to be free throughout the world; and

WHEREAS, the anniversary of his birth is a fitting time to commemorate this great American;

NOW, THEREFORE, I, Edmund G. Brown Jr., Governor of the State of California, do hereby proclaim January 15, 1982 as Martin Luther King Jr. Day in California, and I join all

Californians in recognizing and reflecting on the many contributions Dr. King made to American life and rededicating ourselves to working toward the fulfillment of his dream that right temporarily defeated is stronger than evil triumphant.

"In these great problems of government, I try not to forget that what really counts at the bottom of it all is that the men and women willing to work can have a decent job to take care of themselves and their homes and their children adequately; that the farmers, the factory workers, the storekeeper, the gas station man, the manufacturer, the merchant--big and small--the banker who takes pride in the help he gives to the building of his community; that all of these can be sure of a reasonable profit and safety for the savings they earn--not today nor tomorrow alone, but as far ahead as they can see."

PROCLAMATION

WHEREAS, in the current global climate, characterized by growing international hostilities and the massive build-up of nuclear weapons, the likelihood of nuclear war increases daily; and

WHEREAS, scientific and medical analyses indicate that a nuclear war would result in death, injury, and disease on a scale unprecedented in human history, and that the medical resources necessary to treat victims of nuclear war would be severely impaired if not permanently destroyed; and

WHEREAS, nuclear war would undermine the social fabric of this nation and of all nations of the world by destroying the interdependent transportation, communication, and economic resources that provide the foundation of modern society; and

WHEREAS, nuclear war would cause enormous, and in some cases permanent, damage to the natural environment upon which all life depends; and

WHEREAS, the only possibility of protecting civilization from the devastating consequences of nuclear war lies in its prevention; and

WHEREAS, it is imperative that all citizens be better informed of the perils of nuclear war, so they can effectively participate in efforts to prevent nuclear catastrophe; and

WHEREAS, Ground Zero Week, coordinated by Ground Zero, a non-profit, non-partisan organization, represents an important effort to establish a public dialogue concerning the consequences of nuclear war, through a nationwide program of community-based discussion and educational events, thereby educating citizens about nuclear war and its prevention;

STATE OF EMERGENCY

I, EDMUND G. I DIRECT that as soon hereafter as possible, this proclamation be filed in the Office of the Secretary of State and that widespread publicity and notice be given to this proclamation.

PROCLAMATION

By Margaret L. Montgomery

History is our interpretation of past events. One of the darkest periods in world history took place in 1915 with the massacre of one and one-half million Armenians. It has been said that when Hitler was about to embark on his effort to eliminate the Jewish race he pointed to the Armenian experience, and the lack of outrage about this tragedy, as precedent for his actions. This is history that cannot be accepted or allowed to be repeated.

Last year the State Assembly resolved that one day be set aside in remembrance of the human tragedy suffered by the Armenian people. It is appropriate, therefore, to observe April 23, 1982 as a State Day of Remembrance of the victims of past atrocities and to rededicate ourselves through education and vigilance to resist violence and tyranny in any form.

PROCLAMATION

Twenty years ago, President John F. Kennedy signed a bill into law which proclaimed that May 15 of each year would be observed as a day of mourning for those peace officers who had been killed in the line of duty. I am pleased to join in the observance of this National Peace Officers Memorial Day.

Today's observance offers an opportunity to pay tribute not only to those who have given their lives to protect the citizens of this country - but also to those who stand ready to make the same sacrifice. It is appropriate that in observance of this day, peace officers across the country will place memorial tape over their badges, the symbol of the peace profession. As Winston Churchill once said, "With this shield, however the fates may play, we march always in the ranks of honor."

I hope that the citizens of this state will join me in this observance and take this opportunity to recognize the many services that have been rendered to their communities by peace officers.

FROM: EDMUND G. BROWN JR., GOVERNOR

Pursuant to Chapter 1 of Part 6 Division 9 of the Welfare and Institutions Code, and in order to provide for the continued operation of the In-Home Supportive Services program for the aged, blind and disabled under the provisions of the Welfare and Institutions Code, I do hereby find as facts:

That assistance to this State for the above-mentioned program is provided for by the Federal Social Security Act; and

That this State has qualified to receive Federal assistance for the above-mentioned program and has not been notified that further payment of such Federal assistance will not be made because of failure of this State to comply with the requirements of the Federal legislation; and

That Federal assistance needed by this State for the entire fiscal quarter for the above-mentioned program has not been received, and it is improbable that such Federal assistance will be received by this State prior to the usual time for transmitting such Federal assistance to the program providers in the counties of this State.

In consideration of the above findings, I do hereby proclaim the existence of a period of welfare emergency for the month of June 1982, for the In-Home Supportive Services Program for the Aged, Blind and Disabled, and declare that so much as is necessary, not to exceed \$22 million shall be available for expenditure from the General Fund to the Social Welfare Federal fund to cover payments for IHSS providers. Such loan from the General Fund shall be repaid when the Federal funds become available.

You are, therefore, authorized and directed to do all the things necessary to accomplish the intent and purpose of said Chapter 1 of Part 6 of Division 9 of the Welfare and Institutions Code.

IN WITNESS WHEREOF I have hereunto set my hand and caused the Great Seal of the State of California to be affixed this 26th day of May 1982.

EXECUTIVE ORDER B-102-82

WHEREAS, the enactment of Chapter 680, Statutes of 1982, provides that when there is an impending curtailment of services or there is a change in the manner of performing services, the best interests of the State would be served by providing for two years additional service credit for eligible employees who take an early retirement and that sufficient economies could be realized to offset any cost to state agencies, the University of California, and the California State University; and

WHEREAS, the impact on the state budget as a result of declining resources will cause a curtailment of services and in the manner of performing services by state government, the University of California, and the California State University;

NOW, THEREFORE, I, EDMUND G. BROWN JR., Governor of the State of California, by virtue of the power and authority vested in me by the Constitution and statutes of the State of California, do hereby issue this order to become effective immediately.

- A. State agencies anticipating a layoff of state employees as a result of any one or more of the criteria listed below may submit applications for approval to participate in the early retirement program to the Department of Personnel Administration.

The University of California and the California State University will utilize the same criteria as applied to their respective programs and, if electing to participate in the program, will submit their applications directly to the Department of Finance for fiscal review.

CRITERIA:

- 1. Legislative reduction to its annual budget.
- 2. Program reduction or elimination.
- 3. Technological changes.
- 4. Population reduction (enrollment, patients, inmates, wards, etc.).

- B. All applications will include statements of justification and a full fiscal display.

- C. The Department of Personnel Administration will transmit approved state agency applications to the Department of Finance for fiscal review.
- D. Payment of Public Employees' Retirement System and State Teachers' Retirement System costs will be made in a manner and time acceptable to participating state agencies, UC, CSU, PERS, and STRS Boards and the Department of Finance.
- E. For state agencies electing to participate in the program the early retirement period will terminate 120 days from the effective date of this Executive Order.
- F. For the University of California and the California State University, if electing to participate in the program, the early retirement program will not exceed 120 days and will commence on the respective dates agreed to by those organizations and the Department of Finance.
- G. State agencies, the University of California, and the California State University are hereby advised that this program is to be viewed as a means to alleviate or minimize the stress and hardship on personnel in an anticipated layoff situation.
- H. Employee participation is voluntary.
- I. All approved plans are subject to the provisions of Chapter 680, Statutes of 1982.

NOW, THEREFORE, I, GEORGE DEUKMEJIAN, Governor of the State of California, do hereby proclaim the profound gratitude of the people of California and extend their heartfelt encouragement to McGeorge School of Law for beginning this exciting, new, private sector-oriented crime victims' services program. I urge all federal, state, and local officials--as well as law enforcement officials, agencies, and associations; and legal, political, social, religious, and civic leaders

PROCLAMATION
OF A
STATE OF EMERGENCY

I, GEORGE DEUKMEJIAN, Governor of the State of California, having found that conditions of extreme peril to the safety of persons and property existed in the State of California as a result of heavy rains, high winds, wave action, high tides and flooding, commencing on November 27, 1982 and further impacted by severe weather commencing on January 21, 1983, proclaimed a State of Emergency on January 27, 1983; January 31, 1983; February 7, 1983; and March 3, 1983 in the following counties:

Alameda	Los Angeles	San Bernardino	Shasta
Butte	Marin	San Diego	Solano
Colusa	Mendocino	San Joaquin	Sonoma
Contra Costa	Merced	San Luis Obispo	Sutter
Glenn	Monterey	San Mateo	Tehama
Kern	Orange	Santa Barbara	Trinity
Kings	Sacramento	Santa Clara	Ventura
Lake	San Benito	Santa Cruz	Yolo

The State of Emergency remains in effect for those thirty-two counties previously proclaimed on said dates.

IN ADDITION, I have found that similar conditions of extreme peril to the safety of persons and property exist as a result of heavy rains, high winds, high tides and flooding in the counties of:

Del Norte	Madera	Placer	Stanislaus
Fresno	Napa	Riverside	Tulare

Because the magnitude of this disaster exceeds the capabilities of services, personnel, equipment and facilities of said counties, and having now been requested by the Board of Supervisors of said counties, I therefore proclaim the existence of a State of Emergency and hereby implement the California Peacetime Emergency Plan in the above eight counties.

I DIRECT that as soon hereafter as possible, this proclamation be filed in the office of the Secretary of State and that widespread publicity and notice be given to this proclamation.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Great Seal of the State of California to be affixed this 15 day of March 1983.

PROCLAMATION
OF A
STATE OF EMERGENCY

I, GEORGE DEUKMEJIAN, Governor of the State of California, having found that conditions of extreme peril to the safety of persons and property existed in the State of California as a result of heavy rains, high winds, wave action, high tides and flooding, commencing on November 27, 1982 and further impacted by severe weather commencing on January 21, 1983, proclaimed a State of Emergency on January 27, 1983; January 31, 1983; February 7, 1983; March 3, 1983; and March 15, 1983 in the following counties:

- | | | | |
|--------------|-------------|-----------------|------------|
| Alameda | Los Angeles | Sacramento | Shasta |
| Butte | Madera | San Benito | Solano |
| Colusa | Marin | San Bernardino | Sonoma |
| Contra Costa | Mendocino | San Diego | Stanislaus |
| Del Norte | Merced | San Joaquin | Sutter |
| Fresno | Monterey | San Luis Obispo | Tehama |
| Glenn | Napa | San Mateo | Trinity |
| Kern | Orange | Santa Barbara | Tulare |
| Kings | Placer | Santa Clara | Ventura |
| Lake | Riverside | Santa Cruz | Yolo |

The State of Emergency remains in effect for those forty counties previously proclaimed on said dates.

IN ADDITION, I have found that similar conditions of extreme peril to the safety of persons and property exist as a result of heavy rains, high winds, high tides and flooding in the counties of:

- | | | | |
|----------|----------|--------|------|
| Humboldt | Mariposa | Nevada | Yuba |
|----------|----------|--------|------|

Because the magnitude of this disaster exceeds the capabilities of services, personnel, equipment and facilities of said counties, and having now been requested by the Board of Supervisors of said counties, I therefore proclaim the existence of a State of Emergency and hereby implement the California Peacetime Emergency Plan in the above four counties.

I DIRECT that as soon hereafter as possible, this proclamation be filed in the office of the Secretary of State and that widespread publicity and notice be given to this proclamation.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Great Seal of the State of California to be affixed this 21 day of March 1983.

State of California

EXECUTIVE ORDER D-9-83

WHEREAS, the primary cause of welfare dependency and economic deprivation as manifested in the Aid to Families with Dependent Children Program is the absence of the natural father as a result of desertion or divorce and his failure to provide for the support of his children; and

WHEREAS, eighty-eight percent of the households on public assistance in California are headed by women and most of these families are not receiving financial support from the absent parent as required by law; and

WHEREAS, California has long recognized the importance of enforcing child support obligations; and

WHEREAS, it is imperative that child support orders are secured and enforced in a timely and consistent manner in order to assist these families in becoming self-sufficient; and

WHEREAS, the enforcement of support obligations alleviate the taxpayer burden of supporting these families; and

WHEREAS, over the past several years, California has made great strides in increasing these support collections, but substantial statewide improvements may still be achieved; and

WHEREAS, an examination of the problems and issues relating to the establishment and enforcement of child support orders is necessary so that legislative and administrative action may be taken to remedy these deficiencies on a statewide basis thus increasing the likelihood that all Californians achieve the support and self-sufficiency to which they are entitled;

NOW, THEREFORE, I, GEORGE DEUKMEJIAN, Governor of the State of California, by virtue of the power and authority vested in me by the Constitution and statutes of the State of California, do hereby issue this Order to become effective immediately;

1. There is hereby established a statewide Commission on Child Support Development and Enforcement. Said Commission shall be composed of 15 persons representing a cross section of the Executive, Judicial, and Legislative branches of Government, as well as those lay persons or organizations who would have a direct interest in such a study. The Governor shall appoint these members, one of whom shall be designated as Chairperson.
2. Members of the Commission shall serve without compensation but may be reimbursed for their actual expenses. The Commission is authorized to receive and disburse funds which may be available to finance its work.

3. Among other things, the Commission shall study and report to the Governor on the "Friend of the Court System" as is used in Michigan, the feasibility of an administrative lay process to establish and secure child support, the statewide enforcement of orders through real property liens, a uniform monthly payment of support standard with annual adjustments for cost of living and any other statewide systems or processes which would increase the effectiveness and efficiency of establishing and collecting child support in California.
4. A final report of its findings and recommendations shall be submitted by the Commission to the Governor and Legislature by June 1, 1984. The Commission may issue such interim reports as it deems appropriate.
5. All state agencies, departments, boards, and commissions are hereby directed to assist and cooperate with the Commission in carrying out its responsibilities.

IN WITNESS WHEREOF I have hereunto set my hand and caused the Great Seal of the State of California to be affixed this 15th day of April 1983

EXECUTIVE ORDER D-12-83

WHEREAS, Chapter 680, Statutes of 1982 permits members of the State Teachers' Retirement System who are state employees and state and university members of the Public Employees' Retirement System to receive an additional two (2) years of service credit whenever the Governor determines by executive order, that

- 1) because of an impending curtailment of, or change in the manner of performing services, the best interests of the state would be served by encouraging the retirement of state employees; and
- 2) sufficient economies could be realized to offset any cost to state agencies resulting from a award of such credit; and

WHEREAS, actions taken by the Legislature and the administration to eliminate the state budget deficit will likely result in a curtailment of services and the manner of performing services by state government, the University of California, and the California State University; and

WHEREAS, the best interests of the state would therefore be served by encouraging the retirement of state employees through the award of an additional two years of service credit; and

WHEREAS, sufficient economies could be realized to offset any cost to state agencies resulting from the award of such credit;

NOW, THEREFORE, I, GEORGE DEUKMEJIAN, Governor of the State of California, by virtue of the power and authority vested in me by the Constitution and statutes of the State of California, do hereby issue this order to become effective upon enactment of the 1983 Budget Act:

- A. State agencies anticipating a layoff of state employees are eligible to participate in the early retirement program provided for by Chapter 680, Statutes of 1982 if such layoffs will result from one or more of the following factors:
 1. Legislative reduction in its annual budget
 2. Program reduction or elimination
 3. Population reduction (reduction in enrollment, patients, inmates, wards, etc.)
- B. State agencies other than the University of California and California State University shall submit applications to participate in the program to the Department of Personnel Administration after securing approval of the appropriate Agency Secretary.

- C. The University of California and California State University will utilize the same criteria as applied to their respective programs and, if electing to participate in the program, will submit their applications directly to the Department of Finance for fiscal review.
- D. All applications will include statements of justification and a full fiscal display.
- E. The Department of Personnel Administration will transmit approved state agency applications to the Department of Finance for fiscal review.
- F. Payment of Public Employees' Retirement System and State Teachers' Retirement System costs will be made in a manner and time acceptable to participating state agencies, University of California, California State University, Public Employees' Retirement System and State Teachers' Retirement System Boards and the Department of Finance.
- G. For state agencies electing to participate in the program the early retirement period will terminate 120 days from the effective date of this Executive Order.
- H. For the University of California and California State University, if electing to participate in the program, the early retirement program will not exceed 120 days and will commence on the respective dates agreed to by those organizations and the Department of Finance.
- I. State agencies, the University of California, and the California State University are hereby advised that this program is to be viewed as a means to alleviate or minimize the stress and hardship on personnel in an anticipated layoff situation.
- J. Employee participation is voluntary.
- K. All approved plans are subject to the provisions of Chapter 680, Statutes of 1982.

by the Governor of the State of California

WHEREAS, Juan Rodriguez Cabrillo, a Portuguese navigator in the Spanish service, set out to find the mythical Strait of Anian, purported to provide direct sea lanes from Europe to Asia; and

WHEREAS, Cabrillo set sail from Mexico on June 27, 1542, with a crew of conscripts in poorly built ships containing meager provisions; and

WHEREAS, on September 28, 1542, Cabrillo discovered San Diego Bay, "a port, enclosed and very good", according to the ship's log; and

WHEREAS, Cabrillo anchored at such points as Santa Catalina Island, the Santa Barbara Channel, and Point Conception; and

WHEREAS, northwestern winds prevented Cabrillo from landing north of Point Conception, although evidence indicates that he viewed Monterey Bay from the sea; and

WHEREAS, in April 1543, the crew, starving and scurvy-stricken, returned to Mexico without having found the Strait of Anian and without a full appreciation of their own discoveries; and

WHEREAS, Cabrillo and his men are now rightly honored by history as the discoverers of California;

A PROCLAMATION
by the Governor of the State of California

I, **GEORGE DEUKMEJIAN**, Governor of the State of California, have found that conditions of extreme peril to the safety of persons and property exist within the Counties of Riverside and San Bernardino, State of California, as a result of flooding and the threat of flooding to communities and lands adjacent to the Colorado River commencing on June 17, 1983, caused by increased water releases by the U. S. Bureau of Reclamation from Hoover, Davis and Parker Dams, which were necessitated by record snow melt conditions in the Rocky Mountain Range. Because the magnitude of this disaster exceeds the capabilities of services, personnel, equipment and facilities of the Counties of Riverside and San Bernardino, and having now been requested by the Boards of Supervisors of said counties, I therefore proclaim the existence of a State of Emergency and hereby implement the California Peacetime Emergency Plan.

I DIRECT that, as soon hereafter as possible, this proclamation be filed in the office of the Secretary of State and that widespread publicity and notice be given to this proclamation.

WHEREAS, the number one cause for welfare dependency and economic deprivation of Californians enrolled in the AFDC program is the absence of one parent from the home, either as a result of divorce or desertion; and

WHEREAS, when the absent parent compounds the problem by refusing to contribute to the financial support of their minor children, it creates an economic hardship on the family and a burden on the taxpayers of the state; and

WHEREAS, currently only about one-third of all one-parent households nationwide receive child support payment and less than 15% of absent parents of AFDC families pay support; and

WHEREAS, increased public awareness about this serious problem is necessary to ensure that the responsibility for support is met by financially able parents, thereby reducing the need for taxpayer support of such children through our welfare system; and

WHEREAS, a state commission, created by Executive Order in April 1983, is now studying the limitations and needs of California's child support system and will make recommended program reforms to improve child support collections from absent parents; and

WHEREAS, the continued growth and success of our state's child support program is the responsibility of all government agencies, the legal system and the citizens of California;

NOW, THEREFORE, I, GEORGE DEUKMEJIAN, Governor of the State of California, do hereby proclaim the week of November 27-December 3, 1983 as Child Support Enforcement Week in California.

WHEREAS, since January 1983 the State of California has been operating under a series of freeze orders which have contributed to the alleviation of the fiscal crisis inherited by this Administration; and

WHEREAS, the State must continue to exercise fiscal constraint because, while the State is experiencing a resurgence in the economy, the projected reserve for the fiscal year is minimal; and

WHEREAS, many departments while under the freeze orders have implemented operational efficiencies which have resulted in substantial savings; and

WHEREAS, to assure the momentum of savings is not jeopardized and the implemented efficiencies in State Government are not lost;

NOW, THEREFORE, I, George Deukmejian, Governor of the State of California, by virtue of the power and authority vested in me by the Constitution and Statutes of the State of California, do hereby issue this Order to become effective immediately.

- A. The intent of this Order is to assist departments in the goal of sustaining the efficiencies and reordering of priorities achieved to date.
- B. Except as provided in Item F, all State agencies or departments, regardless of funding source, are prohibited from filling any position, now vacant or becoming vacant, except with a person from the State Restriction of Appointment or Reemployment list or through an intra-departmental transfer.
- C. State agencies or departments shall not enter into, extend or amend any consultant or personal service contract.
- D. State agencies or departments shall not enter into, extend or amend any interagency agreement, including interagency agreements with UC and CSU.

- F. These restrictions shall continue in effect for each agency/department until such time as it is determined that the efficiencies and reprioritizations achieved to date are sustained, at which time a department may be exempted from the restrictions by the Department of Finance. The determination shall be made based on Personnel Management Plans prepared by departments and reviewed and approved by Agency Secretaries and the Department of Finance.
- G. The provisions of this Executive Order shall not apply to the Legislative and Judicial branches of government, nor shall they apply to UC, CSU or the State Compensation Insurance Fund. I invite these branches and units of government to participate in the endeavor.

- B. State agencies other than the University of California and California State University shall submit applications to participate in the program to the Department of Personnel Administration after securing approval of the appropriate Agency Secretary.

- C. The University of California and California State University will utilize the same criteria as applied to their respective programs and, if electing to participate in the program, will submit their applications directly to the Department of Finance for fiscal review.
- D. All applications will include statements of justification and a full fiscal display.
- E. The Department of Personnel Administration will transmit approved state agency applications to the Department of Finance for fiscal review.
- F. - G. For state agencies electing to participate in the program the early retirement period will terminate 60 days from the effective date of this Executive Order.
- H. For the University of California and California State University, if electing to participate in the program, the early retirement program will not exceed 60 days and will commence on the respective dates agreed to by those organizations and the Department of Finance.

STATE OF EMERGENCY

I, GEORGE DEUKMEJIAN, Governor of the State of California, find that conditions of extreme peril to the safety of persons and property exist within the County of Santa Clara, State of California, beginning on April 24, 1984, as a result of a 6.2 earthquake centered 12 miles southeast of San Jose. Because the magnitude of this disaster exceeds the capabilities of the services, personnel, and facilities of said County, and because of the existing situation and continuing seismic activity, I therefore proclaim a State of Emergency to exist in the County of Santa Clara; and

I FURTHER DIRECT that as soon hereafter as possible, this proclamation be filed in the Office of the Secretary of State and that widespread publicity and notice be given to this proclamation.

IN WITNESS WHEREOF I have hereunto set my hand and caused the Great Seal of the State of California to be affixed this 25th day of April 1984

2. The Commission shall be composed of a chairman and six voting members. The Director of Finance and a member of the Board of Equalization shall serve as nonvoting members.

By virtue of the authority vested in the Office of the Governor by the federal Tax Reform Act of 1984, I, George Deukmejian, as Governor of the State of California, hereby proclaim as follows:

- I. Unless the context otherwise requires, the terms defined in this Section shall for all purposes of this proclamation have the following meanings:
 - (a) "Committee" means the California Debt Limit Allocation Committee established pursuant to Section 4 of this proclamation.
 - (b) "Code" means the Internal Revenue Code of 1954, as amended, including as it will be amended by the federal Tax Reform Act of 1984.
 - (c) "County Population Share" means for each calendar year for each county or city and county a percentage calculated by taking as the numerator the most recent State Population Estimate of the entire population of such county or city and county and by taking as the denominator the most recent State Population Estimate of the state.

 - (g) "Private Activity Bond" has the same meaning as that specified in Section 103(n)(7) of the Code.
 - (h) "Private Activity Bond Limit" means any part of the State Ceiling allocated or transferred to a state agency or local agency pursuant to this proclamation.
 - (i) "State" means the State of California.

 - (k) "State Bond Limit" means the 50% of the State Ceiling initially allocated to the State pursuant to Section 3(a) of this proclamation, together with any amounts transferred to any state agency pursuant to Section 6.
 - (l) "State Ceiling" shall be the amount specified by Section 103(n)(4) of the Code for each calendar year commencing in 1984.
 - (m) "State Population Estimate" means, with respect to calendar year 1984, the estimate of population of California cities and counties published by the State Department of Finance on May 1, 1984 and, with respect to calendar year 1985 and thereafter, means the most recent estimate of population of California cities and counties published by the State Department of Finance before the beginning of the calendar year.
2. Pursuant to Section 103(n)(6)(B) of the Code, this proclamation shall govern the allocation of the State Ceiling among the governmental units in this state having authority to issue Private Activity Bonds. Any allocation granted or transferred by or under the authority of this proclamation shall become the Private Activity Bond Limit for the issuer to which such allocation is granted or transferred for any Private Activity Bonds issued by such issuer.
3. (a) There is hereby allocated to the state agencies in each calendar year an amount equal to fifty percent (50%) of the State Ceiling.
- (b) There is hereby allocated to each city, county, and city and county in each calendar year an amount equal to thirty-five percent (35%) of the State Ceiling multiplied by the Local Population Share of each such city, county, or city and county.
- (c) There is hereby allocated to each county (including any city and county) in each calendar year an amount equal to fifteen percent (15%) of the State Ceiling multiplied by the County Population Share of each such county.
- (d) The allocations made by subsections (a), (b) and (c) of this Section shall nevertheless be subject to the provisions of Section 9 hereof.
4. (a) The Committee is hereby established, consisting of the State Treasurer, the State Controller and the Governor, or in the Governor's absence the Director of Finance, any of whom may act through a designee. The State Treasurer shall be the Chairman of the Committee and the Office of the State Treasurer shall provide such administrative assistance and support staff as shall be necessary for the Committee to operate. Members of the Committee shall serve without compensation. The Chairman shall keep or cause to be kept minutes and other records and documents of the Committee.
- (b) Two members of the Committee shall constitute a quorum. The affirmative vote of two members of the Committee shall be necessary for any action taken by the Committee; provided, however, that the Committee may by unanimous vote delegate to its Chairman the authority to carry out any acts empowered to it under this proclamation.

- (c) The Committee shall as soon as is practicable after the date of this proclamation, and thereafter at the start of each calendar year, determine and announce the State Ceiling for the calendar year.
5. (a) Each state agency shall apply to the Committee prior to issuing any Private Activity Bonds, supplying such information as the Committee may require. Such application may be for a specific project, or it may be for a designated dollar amount, to be utilized for projects at the discretion of the state agency. No Private Activity Bonds issued by any state agency shall be deemed to receive the benefit of any portion of the State Bond Limit unless the Committee has allocated a portion of the State Bond Limit to the state agency. Such allocation may be on such terms and conditions as the Committee may determine.
- (b) Any local agency may apply to the Committee for an allocation of a portion of the State Bond Limit, supplying such information as the Committee may require. Applications from local agencies may only be for specific projects or programs. The Committee may transfer to a local agency a portion of the State Bond Limit upon such terms and conditions as the Committee may determine.
- (c) Any allocation made or transferred pursuant to this section shall be irrevocable upon issuance of bonds pursuant thereto at least to the extent of the principal amount of such bonds so issued and any such allocation or transfer shall permit the state agency or local agency receiving same and any transferee thereof to treat all or any portion of such allocation or transfer as a carryforward pursuant to Section 103(n)(10) of the Code unless the resolution or other action making such allocation or transfer provides otherwise.
- (d) No allocation made to a state agency or transferred to a local agency pursuant to this Section may be transferred by the initial recipient thereof to any other state agency or local agency without the consent of the Committee.
6. To further implement the provisions hereof, any local agency may, by resolution, transfer to any other local agency or to any state agency all or any portion of such local agency's Private Activity Bond Limit, subject to the provisions of Section 5(c), if applicable, and Section 8. Any such transfer may be general or limited and subject to such terms and conditions as may be set forth in said resolution; provided that any such transfer shall be irrevocable upon issuance of bonds pursuant to such transfer at least to the extent of the principal amount of such bonds so issued and that any such transfer shall permit the transferee to elect to treat all or any portion of such transfer as a carryforward pursuant to Section 103(n)(10) of the Code unless the resolution making such transfer provides otherwise. Any resolution or action taken by any local agency prior to the date of this proclamation purporting to transfer any portion of any Private Activity Bond Limit to another local agency is hereby ratified as if fully authorized by this Section.
7. (a) No issue of Private Activity Bonds shall be deemed to have received the benefit of any portion of an allocation made or transferred to the Issuer pursuant to this proclamation unless the Issuer's bond resolution or other similar action giving final authority for the issuance of bonds specifically designates a portion of the Issuer's Private Activity Bond Limit to such bond issue. Any such designation shall be irrevocable upon the issuance of such bonds to the extent of the principal amount hereof.
- (b) Each state agency and local agency shall notify the Committee in writing within 15 days of the issuance of any Private Activity Bonds, and of any action taken pursuant to Section 6 to transfer any portion of its Private

Activity Bond Limit to another state agency or local agency, and of any election to treat all or any portion of such state agency's or local agency's Private Activity Bond Limit as a carryforward pursuant to Section 103(n)(10) of the Code.

8. Each county, and city and county, acting through its board of supervisors, shall give priority in application of the allocations granted by Section 3(c) to assist issuance of Private Activity Bonds by the county (to the extent the county has fully utilized its share of the allocation granted by Section 3(b)), by local agencies within the county, or by local agencies whose territory contains part or all of the territory of the county. The county may transfer, pursuant to Section 6, part of the allocation granted by Section 3(c) to a state agency or to a local agency whose territory is entirely outside the county only upon making a determination that it does not reasonably expect to grant requests to use such amount of its Private Activity Bond Limit for any projects or programs described in the first sentence of this Section.
9. (a) Any state agency or local agency which has issued any Private Activity Bonds on or after June 19, 1984 and prior to the date of this proclamation shall submit to the Committee a written notification of such bond issuance, containing the name of the Issuer, the principal amount, the designation of the bonds and the date of issue. The notification shall also be accompanied by a statement of the bond counsel for the Issuer as to whether or not the bond issue was required pursuant to Section 103(n) of the Code to utilize a portion of the Private Activity Bond Limit of the Issuer. The allocation made by Section 3 applicable directly or indirectly to the Issuer of such bonds shall be reduced by the principal amount of such bonds which bond counsel states were required pursuant to Section 103(n) of the Code to be within the Private Activity Bond Limit of such Issuer.
- (b) Bonds issued on or after June 19, 1984 and prior to the date of this proclamation shall not receive the benefit of any portion of the State Ceiling allocated by Section 3 unless the notification required by subsection (a) is received by the Committee within 30 days of the date of this proclamation, and is accompanied by a statement of bond counsel to the effect set forth in the last sentence of Section 9(a).
10. The Committee may request local agencies and state agencies to provide the Committee with information pertaining to the amount and purpose of anticipated future Private Activity Bond issues, or any other information which may be useful to the Committee in performing its duties and responsibilities hereunder.
11. I hereby certify under penalty of perjury that none of the allocations contained in the proclamation was made in consideration of any bribe, gift, gratuity, or direct or indirect contribution to any political campaign.
